Acknowledgments

The Association of American Universities (AAU) Survey on Sexual Assault and Misconduct required collaboration among all the parties concerned. AAU provided steadfast leadership and guidance by Mary Sue Coleman, AAU President, as well as the AAU team of Kimberlee Eberle-Sudré, Samiksha Shetty, Meara O'Malley, Pedro Ribeiro, Rob Marus, Jillian Gates, Tobin Smith, Matt Owens, Katie Steen, Mollie Benz Flounlacker, Jessica Sebeok, Leah Norton, and Andrew Parrish.

The project could not have moved forward without the support of the presidents of the 33 participating schools.

The design was a collaboration with the members of the Survey Design Team (SDT) and the participating schools. Comments on the 2015 and 2019 questionnaires were provided by representatives of each participating school. The SDT met on a weekly, and sometimes twice-weekly, basis to develop the final questionnaire and consider the comments provided by the schools. Often working under pressure, SDT members approached their work in a collegial manner, respecting the opinions of their colleagues, even while sometimes disagreeing. SDT members included Kellie Brennan (The Ohio State University), Brian Cook (Stanford University), Robert Coulter (University of Pittsburgh), Marne K. Einarson and Madelyn Wessel (Cornell University), Karen Heimer (University of Iowa), Marlena Holden and Nora Cate Schaeffer (University of Wisconsin-Madison), Jagruti Patel (Massachusetts Institute of Technology), Audrey Pettifor (University of North Carolina-Chapel Hill), Liam Schwartz and Nicole Merhill (Harvard University), Lara Stemple (University of California-Los Angeles), and Min Xie (University of Maryland-College Park). A very special thanks to Lily Svensen (Yale University) and Christina Morell (University of Virginia) for their willingness to take on the challenging role of committee co-chairs.

In addition to SDT members' active engagement in the survey's design and implementation processes, a number of individuals made invaluable contributions to the study. These individuals include Kelley Adams (Massachusetts Institute of Technology), Emily Babb (University of Virginia), Melanie Boyd (Yale University), Gustavo Burkett (Massachusetts Institute of Technology), La-Tarri Canty (Massachusetts Institute of Technology), Nancy Deutsch (University of Virginia), Erin Driver-Linn (Harvard University), Abigail Francis (Massachusetts Institute of Technology), Jamie Leonard (University of Virginia), Kate McCarthy (Massachusetts Institute of Technology), Kathleen Monagle (Massachusetts Institute of Technology), Sarah Rankin (Massachusetts Institute of Technology), Sarah Robinson Schultz (University of Virginia), Karen Singleton (Massachusetts Institute of Technology), Albert Wang (Harvard University), and Leah Whitehouse (Harvard University).

Most importantly, we'd like to thank the students who completed the survey; without them, this study would not have been possible.

1. Introduction

This report describes the results of the 2019 *Campus Climate Survey on Sexual Assault and Misconduct (Campus Climate Survey)* administered at Harvard University. Student responses to *Campus Climate Survey* items provide data that will inform efforts to prevent and respond to sexual assault and other misconduct at Harvard University. There were six goals of the survey that were intended to provide information to schools on their efforts to prevent and respond to sexual assault and other misconduct:

1. Estimate the prevalence of sexual assault and other misconduct.
2. Describe the circumstances, student responses and consequences associated with instances of sexual assault and other misconduct.
3. Assess student perceptions surrounding sexual assault and other misconduct.
4. Assess student knowledge of school resources and procedures when responding to instances of sexual assault and other misconduct.
5. Assess how bystanders react in different situations related to sexual assault and other misconduct.
6. Describe how the prevalence of nonconsensual sexual contact, and perceptions and knowledge of school policies and procedures have changed since the 2015 survey.¹

Harvard University participated in the *Campus Climate Survey* as part of a consortium of 33 colleges and universities organized by the Association of American Universities (AAU). Harvard University participated in a similar survey organized by AAU in 2015.

This report summarizes the survey's findings and also provides background about the survey's design.

¹ Comparisons between results for 2015 and 2019 surveys are made for some but not all survey items that remained the same between administrations. Comparisons are provided in Tables 7.1 and 7.2. When making other comparisons, the reader should consult Appendix 2 for questions that did not change between the two surveys.

2. Methodology

2.1 Designing the 2019 Instrument

The 2019 *Campus Climate Survey* is a revised version of the survey administered in 2015.² Content development for the 2015 survey and refinement for the 2019 survey were joint collaborations between Westat and the AAU Survey Design Team (SDT). (For a list of SDT members who supported refinement of the 2019 survey, see Table A1, Appendix 1.) The design process began by the release of a request for proposal (RFP) asking interested organizations to submit a bid to implement the 2019 survey. The RFP was released by AAU, which worked with a committee composed of representatives from schools interested in implementing another survey in 2019. Westat, a research organization based in Rockville, Maryland, was awarded the contract in May of 2018.

To design the 2019 survey instrument, the Westat team worked closely with the SDT and participating schools. The SDT was composed of a multi-disciplinary team of college and university professors, administrators, and student service providers from participating schools with expertise in survey design and issues related to sexual assault and other misconduct on campus. Starting in June of 2018, Westat met with the SDT weekly, sometimes twice weekly, to discuss revisions to the survey. The Westat principal investigators (Drs. David Cantor and Bonnie Fisher) and SDT co-chairs (Drs. Lily Svensen and Christina Morell) set the agenda for the meetings.

The 2019 survey design started with the 2015 survey. Revisions were based on multiple sources of information. When making changes, some priority was given to maintaining the measures of selected items on student opinions and nonconsensual sexual contact. Some of the changes made to the 2019 survey reflect revisions to definitions of key concepts since 2015. For example, the definition of stalking was updated to reflect changes in legal standards established by the U.S. Department of Justice. Other changes were made based on feedback from the SDT, the schools, and findings from the 2015 survey. For example, changes were made to the sexual harassment section to reflect recommendations made after analysis of the 2015 survey. Changes were made on the section that collected details about nonconsensual sexual contact

² For additional information on the 2015 *Campus Climate Survey*, including survey development processes, please see <https://www.aau.edu/sites/default/files/AAU-Files/Key-Issues/Campus-Safety/AAU-Campus-Climate-Survey-FINAL-10-20-17.pdf>.

to reduce respondent burden. Similarly, the section on bystander behavior was revised to reflect feedback on the utility of the 2015 items.

Input from participating schools was solicited by asking them to comment on the 2015 survey. These comments were considered as revisions were made. Once a draft of the 2019 survey was developed, it was circulated to the participating schools for comment. The SDT reviewed all comments from schools and made final decisions on changes to the questions. The survey was finalized after conducting a series of one-on-one interviews (cognitive interviews) with college students, obtaining feedback from students at selected participating schools, and conducting a pilot with college students attending a school that was not participating in the survey.

2.2 Survey Content and Mode of Administration

The survey comprises 12 sections (A-J). A core set of 54 questions was asked of every respondent, in each of the following sections: Background (A), General Perceptions of Campus (BB), Perceptions of Risk (B), Knowledge of Resources (C), Sexual Harassment (D), Stalking (E), Intimate Partner Violence (F), Sexual Assault/Other Misconduct (G), Opinions of Program Services (HH), Sexual Misconduct Prevention Training (H), Perceptions of Responses to Reporting (I), and Bystander Behavior (J).

Respondents who had been in a partnered relationship since enrolling at the school were asked questions about Intimate Partner Violence (F). Additional questions were administered if respondents reported being victimized. For Sexual Harassment, Stalking, and Intimate Partner Violence (sections D, E, and F, respectively), follow-up questions were asked across all reported incidents for each form of victimization. For example, if someone was a victim of Intimate Partner Violence by two different partners, the follow-up questions asked for information for both partners. For nonconsensual or unwanted sexual contact since enrolling at the school (section G), follow-up questions (up to four) were asked for each incident. That is, respondents who reported that they experienced at least one incident were prompted to provide more detailed information in the Detailed Incident Form (DIF; Attachment 2) about the incident(s) that impacted or affected them the most. (For the complete survey, with annotations, see Appendix 1.)

While the 2019 survey instrument was based on the 2015 survey instrument, quite a few changes were made for the 2019 instrument. When appropriate, this report compares results

between 2015 and 2019. Appendix 2 provides a comparison of survey items that composed the 2015 and 2019 surveys.

The *Campus Climate Survey* was administered as a web survey. Each page of the web survey included links to general and school-specific frequently asked questions (FAQs) and resources (e.g., national rape crisis hotline number). (For FAQs and resources, see Appendix 3.) Web survey pages also included the Help Desk number to assist students who needed either technical assistance or additional resources.

2.3 Sample

Harvard University conducted a census survey that included 23,015 enrolled students. To encourage participation, students were offered a \$5 incentive to complete the survey. Students were notified of their eligibility for the \$5 Amazon gift card in the invitation and reminder emails.

2.4 Survey Procedures

The *Campus Climate Survey* was launched at Harvard University on April 2, 2019. Email invitations to participate in the survey were sent to students' school email addresses through a Westat email address on the first day of data collection. An email from Lawrence S. Bacow, President of Harvard was sent prior to the first e-mail notifying students about the survey. Each subsequent email included a unique link to the student's online survey and was signed by Westat (on behalf of Harvard University). To prompt completion of the survey before the deadline, Westat sent reminder emails. Harvard University's *Campus Climate Survey* closed on April 30, 2019. (For email invitations and reminders, see Appendix 4.)

2.5 Response Rates

At the close of data collection, the percentage of students at Harvard University who provided data for at least some of the survey items is 40.7 percent. The school had an overall response rate of 36.1 percent; this response rate is based on those students who provided enough information to conduct the analyses described in this report (Table 1).

Table 1. Response rates¹

N = 23,015	Woman			Man			Total		
	n	resp	%	n	resp	%	n	resp	%
Undergraduates	3,651	1,493	40.9%	3,809	1,117	29.3%	7,460	2,610	35.0%
Graduates/Professional	7,808	3,272	41.9%	7,747	2,432	31.4%	15,555	5,704	36.7%
Total	11,459	4,765	41.6%	11,556	3,549	30.7%	23,015	8,314	36.1%

¹The response rates use total counts from administrative data as the denominator, which only has ‘man’ and ‘woman’ as gender categories. For purposes of the response rate calculation, those who identified themselves in another category were imputed into one of these two categories.

A completed survey was defined by two criteria:

- It took the student at least 5 minutes to complete the survey. This criterion was applied to students who went through the entire survey and it was possible to measure the amount of time to complete.³
- The student answered at least one question in each of the following sections: sexual harassment (D), stalking (E), and sexual assault/other misconduct (G).

The first criterion was established to exclude those students who went through the survey so quickly that they could not possibly read and answer the questions.⁴ The second criterion is relevant to cases in which the respondent did not click the “submit” button at the end of the survey but did provide responses to most of the survey items. The victimization sections were used to define a “complete” survey because of the importance of these items to the survey’s goals.⁵

³ Timing data were not available for respondents who: 1) did not advance through the survey in its entirety and click the “submit” button, or 2) exited and re-entered the survey one or more times.

⁴ When pilot testing the survey, we asked testers to go through the survey as quickly as possible (e.g., skimming the questions and not reading the introduction or instructions). Based on these findings, 5 minutes was chosen as a cutoff point, below which the survey was not counted as complete.

⁵ This criterion could not be used for Intimate Partner Violence (section F) because of the skip pattern embedded in this section (i.e., student had to have been in a partnered relationship since enrolling at the school).

2.6 Brief Description of the Weighting Procedure for Harvard University

The initial step in the weighting procedure was to create a base-weight for each respondent. A census was conducted at Harvard University, and a base weight of one was assigned to each respondent. The base weight was adjusted to reflect non-response. This adjustment consisted of a statistical raking procedure that adjusted the base weight to the demographic data available on the sample frame (Deming & Stephen, 1940; Deville, Särndal, & Sautory, 1993; Cervantes & Brick, 2008). The variables used in the statistical raking procedure are shown in Table 2:

Table 2. Variables used in the statistical raking procedure

Variable	Description	Variable Value
Gender	Two-category gender variable (woman/man). The frame data only had two categories (woman and man), whereas the survey data had eight categories. To make the frame and the survey data compatible, the survey responses to a non-woman/man category were imputed to a woman or man category. Transgender woman/man cases are coded as woman/man, respectively.	1: Woman 2: Man
Age Group	Student's age was grouped into four categories: 18-20, 21-23, 24-26, and 27+.	1: 18-20 2: 21-23 3: 24-26 4: 27+
Year in School	This is a combined variable of student affiliation (Undergraduate/Graduate/Professional) and year of study or year in program. The survey had separate questions on year of study for undergraduates (freshman, sophomore, junior, senior) and graduate/professional students (1 st , 2 nd , ...,5+).	1: First-year undergraduate 2: Second-year undergraduate 3: Third-year undergraduate 4: Fourth-year or higher undergraduate 5: Graduate/Professional years 1 & 2 6: Graduate/Professional years 3 & 4 7: Graduate/Professional years 5+
Race/Ethnicity	This variable has five categories: Hispanic, White, Black, Other race, and Nonresident alien. The frame race/ethnicity categories are grouped this way, and the survey race/ethnicity variables were coded to conform to this categorization.	1: Hispanic 2: White 3: Black 4: Other race 5: Nonresident alien

Missing values in the frame and demographic variables in the survey data were imputed using a hot-deck procedure that randomly allocated responses in the same proportion as those answered within each imputation class. The highest imputation rate for the frame data was less than 0.07 percent, and on average, 0.48 percent of survey respondents had to be imputed in this way.

The statistical raking procedure adjusts the base weight so that the sum of adjusted weights of the survey respondents for a subgroup is equal to the sample frame total for that subgroup. Subgroups are defined by each variable used in the statistical raking procedure. Algebraically, this can be expressed as

$$\sum_{k=1}^n I_{gk} w_k = N_g$$

where n is the respondent sample size (8,314), I_{gk} is an indicator variable having 1 if respondent k belongs to subgroup g , 0 otherwise, w_k is the adjusted weight for respondent k , and N_g is the frame count of subgroup g .

For example, the weight total for all survey respondents who are women is equal to the total count of women in the sample frame (11,459). The same is true for subgroups defined by each variable listed in the above table.

3. Survey Results

This chapter describes the results of the survey for the following seven topics:

1. Student perceptions and knowledge of sexual assault and other misconduct on campus.
2. Student knowledge and opinions about resources related to sexual assault and other misconduct.
3. The prevalence and nature of nonconsensual sexual contact by physical force, and inability to consent or stop what was happening.
4. The prevalence and nature of nonconsensual sexual contact involving coercion or without active, ongoing voluntary agreement.⁶
5. The prevalence and nature of sexual harassment, intimate partner violence, and stalking.
6. Change in the prevalence of nonconsensual sexual contact between 2015 and 2019.
7. Change in student perceptions of risk and knowledge of resources between 2015 and 2019.

Most of the discussion and tables contain rates by gender and student affiliation. For gender, students were asked to self-identify into one of eight categories.⁷ For rates described below, students were classified into one of three groups: 1) woman, 2) man, and 3) trans man or woman, genderqueer or nonbinary, questioning, or not listed (TGQN).⁸ Student affiliation was divided into two groups: 1) undergraduate and 2) graduate/professional.

Collapsing groups into the TGQN category helps to maintain an adequate sample to generate estimates. Prior surveys have shown that TGQN students and women have significantly higher rates of victimization than men. However, very few campus surveys have produced statistically reliable estimates for students that identify as TGQN. A very small

⁶ In the 2015 survey, “without active, ongoing voluntary agreement” was referred to as “absence of affirmative consent.” The measurement of this tactic did not change between surveys.

⁷ These eight categories are: man, woman, trans man, trans woman, genderqueer or nonbinary, questioning, not listed, and decline to state.

⁸ Those who declined to state their gender were randomly allocated using a hot-deck imputation procedure to the man, woman, or TGQN categories. Approximately 0.6 percent of respondents declined to state their gender.

percentage of the student population identifies as TGQN and because of this, the number of students completing the surveys is small. Approximately 1.8 percent of the students selected one of the TGQN categories (Table A). This is an inadequate number of respondents to generate reliable estimates if the data are disaggregated by student affiliation (undergraduate and graduate/professional categories). Separating by affiliation will result in many cells being suppressed because of small sample, especially for graduate and professional students. In the interest of including as many results as possible for this group, this report combines data across student affiliation categories for TGQN students.

When interpreting the tables, please note the following:

1. An uppercase letter 'S' indicates the cell was suppressed for confidentiality reasons (when that cell had fewer than three cases).
2. The symbol '-' indicates there was no data for that cell.

The study team compared findings for some, but not all, subgroups to determine if there are statistically significant differences between groups. The results of these significance tests are reported below. A two-tailed z-test at the 5 percent level was used.

The report also compares TGQN students to undergraduate women in order to provide the reader with some point of comparison, even though it does not account for TGQN student affiliation. Based on prior research, undergraduate TGQN students do differ from graduate and professional TGQN students. For example, undergraduate TGQN students have higher victimization rates than graduate and professional TGQN students (Cantor et al., 2017). However, for the reasons given above, the results in this report do not disaggregate TGQN students by affiliation. Undergraduate women were used as a comparison group because their rates are closest with respect to victimization and climate measures to TGQN students. For example, with respect to victimization rates, the 2019 AAU survey found that across all 33 schools participating in the survey, the rates of nonconsensual sexual contact by force or inability to consent for TGQN students were either the same or slightly lower when compared to undergraduate women.⁹ When comparing the rates for TGQN students to the other groups discussed in this report (i.e., undergraduate men, graduate/professional men and women) the rates are between 2 to 7 times higher. The reader is referred to the 2015 and 2019 AAU

⁹ The estimates for nonconsensual penetration by physical force or inability to consent were virtually identical (10.9% vs. 10.7%). The rates for nonconsensual touching were higher for undergraduate women (19.6% vs. 14.8%).

aggregate reports that summarize across all schools, which have much larger samples, for analyses of TGQN students by affiliation status (Cantor et al., 2017; 2019).

3.1 General Perceptions of Campus and Bystander Behavior Around Sexual Assault and Other Misconduct

Students reported on several topics related to their perceptions and knowledge of school policies and practices, and on bystander behavior related to sexual assault and other misconduct. They were asked about their expectations regarding the response from the school if they were to report a sexual assault or misconduct; whether they had ever witnessed an incident and whether they intervened; whether they perceived sexual assault or other misconduct as a problem on campus; and the likelihood that they would be victimized.

Response to a Report of Sexual Assault or Other Misconduct

Students were asked how campus officials would respond to a report of sexual assault or other misconduct at Harvard University (Table 1.1). Overall, 66.2 percent perceived that it is very or extremely likely that campus officials would take the report seriously. Among undergraduates, 49.3 percent of women and 74.7 percent of men perceived that it is very or extremely likely. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 60.5 percent of women and 76.6 percent of men perceived that it is very or extremely likely. There is a statistical difference between graduate/professional women and men. Among TGQN students, 48.0 percent perceived that it is very or extremely likely. There is not a statistical difference between TGQN students and undergraduate women.

Students were asked if they believe that campus officials would conduct a fair investigation in response to a report of sexual assault or other misconduct. Overall, 46.5 percent indicated that it is very or extremely likely that the investigation would be fair. Among undergraduates, 33.2 percent of women and 51.3 percent of men perceived that it is very or extremely likely. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 42.7 percent of women and 55.3 percent of men perceived that it is very or extremely likely. There is a statistical difference between graduate/professional women and men. Among TGQN students, 25.9 percent perceived that it is very or extremely likely. There is a statistical difference between TGQN students and undergraduate women.

Bystander Behavior

The survey included questions about four different situations students may have witnessed related to sexual assault or other misconduct since they have been students at the school and how they reacted to them (Table 1.2). Student responses about the extent to which they took direct action in response to four different scenarios are described below. “Direct” was defined as either “directly intervened or interrupted the situation in the moment” or “confronted or expressed concern to the person engaging in the behavior.”¹⁰

Did the student notice someone acting in a way they believed was making others feel uncomfortable or offended? Overall, 23.3 percent of students indicated they noticed this type of incident. Among those who witnessed this type of incident, 66.0 percent took some type of action,¹¹ with 34.1 percent who directly intervened or interrupted the situation, or confronted or expressed concern to the person engaging in the behavior.

Did the student witness a pattern of sexual comments or behaviors that made them concerned that a fellow student was experiencing sexual harassment? Overall, 6.1 percent of students indicated they witnessed this type of incident. Among those who witnessed this type of incident, 79.0 percent took some type of action,¹² with 21.7 percent who directly intervened or interrupted the situation, or confronted or expressed concern to the person engaging in the behavior.

Did the student witness someone behaving in a controlling or abusive way towards a dating or sexual partner? Overall, 8.8 percent of students indicated that they witnessed such an incident. Among those who witnessed this type of incident, 73.5 percent took some type of action,¹³ with 18.7 percent who directly intervened or interrupted the situation, or confronted or expressed concern to the person engaging in the behavior.

Did the student witness a situation that they believed could have led to a sexual assault? Overall, 11.8 percent of students indicated that they witnessed such an incident. Among those who witnessed this type of incident, 74.2 percent took some type of action,¹⁴

¹⁰Percentages in the table related to student responses after witnessing each situation may not sum to 100 as students could select multiple responses.

¹¹The percentages in this sentence are not included in the table.

¹²Ibid.

¹³Ibid.

¹⁴Ibid.

with 39.5 percent who directly intervened or interrupted the situation, or confronted or expressed concern to the person engaging in the behavior.

Perceptions Related to Personal Risk

When asked how problematic sexual assault or other misconduct is at Harvard University, 22.5 percent of students reported that it is very or extremely problematic (Table 1.3). Among undergraduates, 36.0 percent of women and 24.8 percent of men had this perception. Among graduate/professional students, 20.4 percent of women and 16.0 percent of men had this perception. Among TGQN students, 44.8 percent had this perception.

Overall, 5.2 percent of students thought it was very or extremely likely that they will experience sexual assault or other misconduct in the future while enrolled at Harvard University. Among undergraduates, 14.6 percent of women and 2.1 percent of men perceived this as very or extremely likely. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 5.8 percent of women and 1.0 percent of men perceived this as very or extremely likely. There is a statistical difference between graduate/professional women and men. Among TGQN students, 14.6 percent perceived this as very or extremely likely. There is not a statistical difference between TGQN students and undergraduate women.

Students were also asked to report about their overall experience with the campus community at Harvard University (Table 1.4; see also Figure 1). Overall, 27.1 percent feel very or extremely connected to the campus community. Among women, 44.3 percent of undergraduates and 18.6 percent of graduate/professional students reported they feel this way. There is a statistical difference between undergraduate women and graduate/professional women. Among men, 40.8 percent of undergraduates and 21.6 percent of graduate/professionals reported feeling very or extremely connected to the campus community. There is a statistical difference between undergraduates and graduate/professional students. Among TGQN students, 17.0 percent feel very or extremely connected to the campus community. There is a statistical difference between TGQN students and undergraduate women.

Figure 1. Student Feeling About the Campus Community¹⁵

The survey included several other questions on the campus community, such as how comfortable students feel seeking advice from faculty and staff, even about something personal, at Harvard University. Overall, 25.3 percent of students reported being very or extremely comfortable seeking advice from faculty or staff at the school. Respondents were asked whether students are concerned for each other’s well-being. Overall, 31.7 percent perceive that students are very or extremely concerned about each other’s well-being. Students were asked if they feel faculty or staff at Harvard University are concerned about their well-being. Overall, 30.4 percent perceive that faculty or staff at Harvard University are very or extremely concerned about their well-being. Finally, students were asked if officials at Harvard University are concerned about their well-being. Overall, 23.1 percent perceive that school officials are very or extremely concerned about their well-being.

¹⁵Numbers are rounded to the next integer. Percentages may not sum to 100 due to rounding.

3.2 Resources Related to Sexual Assault and Other Misconduct

This section presents findings on student knowledge of resources at Harvard University related to sexual assault and other misconduct. The students were first asked if they were aware of a specific list of services and resources the school provided. They were then asked about their knowledge of different policies and procedures related to sexual assault and other misconduct at Harvard University. Students were also asked whether they completed training modules or information sessions about sexual assault or other misconduct and, if so, the topics the training included.

Awareness of Services and Resources

Table 2.1 presents findings on the extent to which students are aware of specific services and resources the school and local community provide for victims of sexual assault or other misconduct. Overall, 3.8 percent were not aware of any of the services and resources presented on the survey. Among the specific services and resources available, students' awareness ranged from 23.5 percent for Office for Dispute Resolution (ODR) to 90.9 percent for Harvard University Health Services (HUHS).

Knowledgeable about School's Sexual Assault Policies and Procedures

Questions were included on the survey about student knowledge of school policies and resources. The percentage of students who reported they were very or extremely knowledgeable about how Harvard University defines sexual assault and other misconduct is 34.4 percent (Table 2.2). Among undergraduates, 35.8 percent of women and 43.0 percent of men reported that they are very or extremely knowledgeable. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 30.6 percent of women and 32.9 percent of men reported they are very or extremely knowledgeable. There is a statistical difference between graduate/professional women and men. Among TGQN students, 43.2 percent reported they are very or extremely knowledgeable. There is a statistical difference between TGQN students and undergraduate women.

When asked how knowledgeable they were on where to get help at the school if they or a friend are victims of sexual assault or other misconduct, 41.1 percent of students reported they were very or extremely knowledgeable about where to find help. Among women, 47.6 percent of undergraduates and 36.8 percent of graduate/professional students reported they were very

or extremely knowledgeable. There is a statistical difference between undergraduate women and graduate/professional women. Among men, 48.1 percent of undergraduates and 38.3 percent of graduate/professionals reported they were very or extremely knowledgeable. There is a statistical difference between undergraduate and graduate/professional men students. Among TGQN students, 54.4 percent reported being very or extremely knowledgeable. There is a statistical difference between TGQN students and undergraduate women.

Two other questions were asked about student knowledge of procedures at the school related to reports of sexual assault or other misconduct. One asked how knowledgeable they were about where to make a report of sexual assault or other misconduct. Among all students, 35.1 percent reported being very or extremely knowledgeable about where to make a report. The other question asked about knowledge of what happens when a student reports an incident of sexual assault or other misconduct. In response to this question, 19.9 percent of students reported being very or extremely knowledgeable about what happens after an incident has been reported.

Attending Trainings on Sexual Assault and Other Misconduct

Both incoming students (initial enrollment at the school during the current academic year) and returning students (initial enrollment at the school prior to the current academic year) answered questions about attendance at a training or information session since enrolling at Harvard University. Overall, 87.9 percent of the incoming students indicated that they completed at least one training or session about sexual assault and other misconduct, while 83.6 percent of the returning students reported that they completed at least one since arriving at the school.

Among the incoming students who completed a session or training, topics included how sexual assault or other misconduct is defined on campus (96.3%), how to prevent sexual assault or other misconduct (70.7%), additional training programs on prevention (49.3%), and where to seek help if they or someone else experienced sexual assault or other misconduct (95.6%).

Among the returning students who completed a session or training, topics included how sexual assault or other misconduct is defined on campus (95.0%), how to prevent sexual assault or other sexual misconduct (69.0%), additional training programs on prevention (47.4%), and where to seek help if they or someone else experienced sexual assault or other misconduct (94.3%) (Figure 2).

Figure 2. Percent of Returning Students Who Completed a Session or Training on Different Issues Related To Sexual Assault and Other Misconduct, By Gender and Student Affiliation

3.3 Nonconsensual Sexual Contact by Physical Force or Inability to Consent or Stop What Was Happening

Students were asked about a number of different types of nonconsensual sexual contact. This section describes the prevalence and characteristics of incidents that occurred as a result of either physical force or the inability to consent or stop what was happening (hereafter referred to as “inability to consent”). To be counted as a victim of this type of incident, the respondent had to answer “yes” to one of five different questions that asked about two different types of sexual contact – penetration and sexual touching. The survey defined each of these as:

Penetration:

- Putting a penis, finger, or object inside someone else’s vagina or anus

- When someone’s mouth or tongue makes contact with someone else’s genitals

Sexual Touching:

- Kissing
- Touching someone’s breast, chest, crotch, groin, or buttocks
- Grabbing, groping, or rubbing against the other in a sexual way, even if the touching is over the other’s clothes

The prevalence rates in this section refer to sexual contact that occurred because the perpetrator used physical force or threats of physical force (survey items G1 to G3) or the respondent was unable to consent (survey items G4 and G5).¹⁶

Physical force was defined on the survey as:

...someone holding you down with his or her body weight, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

The inability to consent or stop what was happening was defined with the following introduction:

The next questions ask about incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol. Please include incidents even if you are not sure what happened.

If the student reported both penetration and sexual touching in the same incident, the penetration was counted in the estimates described below. This hierarchy rule conforms to the counting rules established by the Federal Bureau of Investigation’s Uniform Crime Reporting Program (U.S. Department of Justice, 2013) and used by schools in disclosing the annual crime statistics required under the Clery Act.¹⁷

The questions used to measure these types of victimizations were not changed for the 2019 survey, with two exceptions. First, the introductory text for survey items in section G was modified to emphasize that the behaviors described could be performed on the victim or the victim could be forced to perform the behaviors on someone else. A second change was to add

¹⁶In 2015 “inability to consent” was referred to as “incapacitation.” This was measured the same way in 2015 and 2019. The label describing this tactic was changed to indicate the measure incorporated more than incapacitation.

¹⁷Clery Act Hierarchy Rule: 34 CFR 668.469(c)(9)

a sentence emphasizing the perpetrator could be anyone, whether or not the person was associated with the school. The changes to the introduction are shown in italics below.

This next section asks about nonconsensual or unwanted sexual contact you may have experienced while attending [University].

The sexual behavior may have been performed on you or you may have been made to perform the sexual behaviors on another person. The person with whom you had the nonconsensual or unwanted contact could have been someone you know, such as someone you are currently or were in a relationship with, a co-worker, a professor, or a family member. Or it could be someone you do not know.

Please consider anyone who did this, whether or not the person was associated with (University).

The following questions separately ask about contact that occurred because of physical force, incapacitation due to alcohol and/or drugs, and other types of pressure.

Comparisons of the estimates reported in this section to the 2015 survey are provided in section 3.7.

Prevalence of Nonconsensual Sexual Contact Involving Physical Force or Inability to Consent

Nonconsensual sexual contact by physical force or inability to consent since entering the school.¹⁸ Prevalence is estimated by counting the number of individuals that have been a victim at least once over the time period of interest. Figure 3 provides the rates of nonconsensual sexual contact by physical force or inability to consent since entering Harvard University for the five different gender and affiliation groups (see Tables 3.1 to 3.5). Among undergraduates, 24.0 percent of women and 8.4 percent of men reported this type of victimization. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 8.0 percent of women and 1.8 percent of men reported they were this type of victim. There is a statistical difference between graduate/professional women and men. Among TGQN students, 16.5 percent reported they were a victim. There is a statistical difference between TGQN students and undergraduate women.

¹⁸Unless otherwise indicated, percentages related to penetration include completed and attempted incidents.

Figure 3. Percent of Students Who Experienced Penetration or Sexual Touching Involving Physical Force and/or Inability to Consent or Stop What Was Happening Since Entering Harvard University, By Gender, Student Affiliation, and Behavior

Penetration by physical force or inability to consent. Focusing on incidents of penetration since entering Harvard University, among undergraduates, 10.2 percent of women and 2.7 percent of men reported this type of victimization. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 3.4 percent of women and 0.5 percent of men reported they experienced this type of victimization. There is a statistical difference between graduate/professional women and men. Among TGQN students, 7.4 percent reported they were a victim. There is not a statistical difference between TGQN students and undergraduate women.

Focusing on penetration for the two different types of tactics (physical force, inability to consent), among undergraduate women, 5.5 percent reported penetration by physical force, 5.1 percent reported penetration because of an inability to consent, and 1.6 percent reported both tactics occurring during the same incident. Among undergraduate men, 1.1 percent

reported penetration by physical force, 1.9 percent reported the incident occurred because of an inability to consent, and 0.4 percent reported both tactics occurring during the same incident. Among graduate/professional women, 1.6 percent reported penetration by physical force, 1.6 percent reported by inability to consent, and 0.5 percent reported both tactics occurring during the same incident. Among graduate/professional men, 0.3 percent reported penetration by physical force and 0.3 percent reported by inability to consent. Among TGQN students, 5.1 percent reported they were a victim of penetration by physical force.

Sexual touching by physical force or inability to consent. Among undergraduates, 19.6 percent of women and 6.7 percent of men reported nonconsensual sexual touching by physical force or inability to consent. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 6.0 percent of women and 1.6 percent of men reported they experienced this type of victimization. There is a statistical difference between graduate/professional women and men. Among TGQN students, 11.5 percent reported they were a victim. There is a statistical difference between TGQN students and undergraduate women.

Focusing on rates for specific tactics (physical force or inability to consent), among undergraduate women, 13.9 percent reported sexual touching by physical force, 7.0 percent reported sexual touching occurred because they were unable to consent, and 1.3 percent reported both tactics occurred during the same incident. Among undergraduate men, 4.0 percent reported sexual touching by physical force and 2.4 percent reported sexual touching occurred because they were unable to consent. Among graduate/professional women, 4.0 percent reported sexual touching by physical force, 2.2 percent reported they were unable to consent, and 0.4 percent reported both tactics occurred during the same incident. Among graduate/professional men, 1.2 percent reported sexual touching by physical force and 0.4 percent reported they were unable to consent. Among TGQN students, 9.1 percent reported sexual touching by physical force and 4.7 percent reported they were unable to consent.

Prevalence Rates of Nonconsensual Sexual Contact Involving Physical Force or Inability to Consent by Student Characteristics

The rates of nonconsensual sexual contact vary across students with different backgrounds. Non-heterosexual students (gay or lesbian, other or multiple categories) had a

prevalence rate of 15.7 percent¹⁹ and heterosexual students had a rate of 6.9 percent. These rates are statistically different. Among Hispanic or Latino students, 11.0 percent reported experiencing nonconsensual sexual contact involving physical force or inability to consent, compared to 8.4 percent of non-Hispanic or Latino students. This is statistically different. With respect to race, the rates are 8.4 percent for White students, 9.4 percent for Black students, 7.0 percent for Asian students, and 12.0 percent for students in Other and Multi Race groups. Students who indicated they have a disability had a prevalence rate of 14.6 percent, while 6.5 percent of respondents who did not identify as a student with a disability reported being victimized. These rates are statistically different. Overall, 1.8 percent of married students and 10.0 percent of students who are not married reported experiencing penetration or sexual assault involving physical force or inability to consent.

Prevalence rates: current year vs. since entering school. The rates by year in school are disaggregated by time frame (current year vs. since entering Harvard University, Table 3.6). The current year rates are for incidents that occurred since the start of the Fall 2018 school year and provide a profile of how risk varies by school year. Prior research has found that for undergraduates, the first year enrolled poses the highest risk of victimization (e.g., Cantor et al., 2017). Looking at prevalence in the current school year for undergraduate women, for example, first-year students have a rate of 15.8 percent, second-year students a rate of 12.2 percent, third-year students a rate of 7.4 percent, and students in their fourth year (or higher) a rate of 10.3 percent. There is a statistical difference between undergraduate women in their first and fourth or higher year of school.

The measure “since entering” school provides a cumulative picture of the victimization experience of the student. With each year in school, the student has a longer time period when an incident could occur. Among undergraduate women, the percentage that reported at least one victimization was 15.8 percent of first-year students, 21.5 percent of second-year students, 28.0 percent of third year students, and 30.3 percent of students in their fourth year or higher. Estimates for the group of students in their fourth year or higher represent the cumulative risk of victimization students experience over the entire span of their college career. There is a statistical difference between undergraduate women in their first and fourth or higher year of school.

¹⁹The percentage is not included in the table.

Number of Times Assaulted

As noted in the introduction to this section, the *Campus Climate Survey* includes questions that count the number of times each type of victimization incident occurred, including instances involving more than one type of behavior or tactic (Table 3.7). This provides a picture of how many people have been victimized more than one time. Since entering college, 3.3 percent of women reported experiencing penetration by physical force or inability to consent one time and 2.3 percent reported two or more times. For sexual touching by physical force or inability to consent, 4.8 percent of women reported experiencing this type of victimization one time and 5.5 percent reported two or more times.

Contacting an Organization and Reasons for Not Contacting

Students who reported an incident of nonconsensual sexual contact involving physical force or inability to consent were asked for details about the incident. Students that reported more than one incident were asked to first report on the incident that “...impacted or affected them the most.” Students were asked to report on up to four incidents using this criterion. In this portion of the survey, students were presented with a list of programs and resources available at Harvard University. The student could mark one or more programs or resources that were contacted. If they did not contact a program or resource, students were asked why they did not make contact. This differs from how these data were collected on the 2015 survey. Because of this difference, the data from this section of the 2015 and 2019 surveys cannot be compared directly.

Overall, for 40.7 percent of incidents involving women and 26.8 percent involving men, victims made contact with a program or resource as a result of penetration involving physical force or inability to consent (Table 3.14). As one might expect, the percentage reported is different for sexual touching by physical force or inability to consent. For these incidents, 17.8 percent of women and 8.4 percent of men contacted a program or resource.

Several follow-up questions were asked on why the respondent did not contact a program or resource (Table 3.14). For women who experienced nonconsensual penetration, among the reasons for not contacting an agency or resource (Figure 4), 53.7 percent of respondents reported they could handle it themselves, 49.2 percent reported the incident was not serious enough, and 33.4 percent reported being embarrassed, ashamed, or that it would be too emotionally difficult. Other reasons women who were victims of nonconsensual penetration gave for not making contact included: they did not think the resources could help

them (37.0%), they did not want to get the perpetrator in trouble (21.1%), and they feared retaliation (10.1%). After incidents involving sexual touching, 49.1 percent of women did not contact a program or resource because they could handle it themselves, and 60.6 percent reported it was not serious enough. Among the other reasons, 20.8 percent reported they were embarrassed, ashamed, or that it would be too emotionally difficult and 11.5 percent reported they did not want to get the perpetrator in trouble.

Figure 4. Reasons for Not Contacting a Program or Resource for Women Who Experienced Penetration by Physical Force or Inability to Consent or Stop What Was Happening

A common reason students gave for not contacting a program or resource was that the incident was “not serious enough.” This has also been true on other surveys that ask about sexual assault and misconduct, including the 2015 *Campus Climate Survey*. However, the meaning of this response is somewhat ambiguous. It may be that the student did not feel the incident was serious enough to be considered a violation of the school’s code of conduct. But it may also be a judgment that the perceived consequences of contacting a program are greater than the consequences of the incident itself. For example, many sexual assault victims do not report incidents to law enforcement because they do not want to get the perpetrator in trouble or go through an investigation.

To examine this line of reasoning more carefully, students who reported that they did not contact a program or resource because the incident was “not serious enough” or for an “other reason” were asked if there were better descriptors of why they did not contact a resource or program (Figure 5, Table 3.14). Among the women who reported nonconsensual penetration and were asked this follow-up item, 72.2 percent reported they did not make contact because they were not injured or hurt, 54.1 percent reported the incident began consensually, 5.8 percent reported they might be counter-accused, 55.9 percent reported alcohol or drugs were involved, and 25.3 percent reported they were too busy.

Figure 5. Reasons for Not Contacting a Program or Resource When Initial Response Was “Not Serious Enough” or “Other” For Women Who Experienced Penetration by Physical Force or Inability to Consent or Stop What Was Happening

In comparison to contacting a program or service, it is much more common for victims of nonconsensual sexual contact to tell another person about the incident (Table 3.15). Among women who experienced nonconsensual penetration by physical force or inability to consent, 89.3 percent told at least one other person including a friend (83.1%), a family member (26.3%), and a faculty member or instructor (4.7%). Among men who experienced penetration by physical force or inability to consent, 78.3 percent told at least one other person including a friend (78.3%) and a family member (13.0%).

3.4 Nonconsensual Sexual Contact by Coercion and Without Active, Ongoing Voluntary Agreement

This section summarizes the prevalence of nonconsensual sexual contact that was the result of coercion and that occurred without active, ongoing voluntary agreement at Harvard University.

Coercion

For purposes of the survey, coercion was defined as:

... threatening serious non-physical harm or promising rewards such that you felt you must comply(.) Examples include:

- Threatening to give you bad grades or cause trouble for you at work
- Promising good grades or a promotion at work
- Threatening to share damaging information about you with your family, friends or authority figures
- Threatening to post damaging information about you online.

The questions that were used to measure these events are survey items G6 and G7.²⁰ If a respondent reported that the incident was part of a previously reported incident involving physical force or inability to consent, the event was not counted as coercion.

Overall, the rates for coercion were the lowest among the other forms of nonconsensual sexual contact. Because they are low, the data are combined across the two forms of sexual contact (penetration and sexual touching) (Table 4.1). Since entering Harvard University, 0.3 percent of students reported they had been victims of penetration or sexual touching involving coercion. For example, among undergraduate students, 0.6 percent of women reported this type of victimization.

²⁰With the exception of the change in the introduction to this section of the survey (see discussion at the beginning of section 3.3), the questions and methods used to measure these incidents are the same as used in the 2015 AAU Survey.

Without Active, Ongoing Voluntary Agreement

A fourth form of nonconsensual sexual contact measured on the survey were incidents that occurred without active, ongoing voluntary agreement.²¹ These items were developed to capture school regulations that make it a violation if both partners in a sexual encounter do not explicitly consent. To develop the questions, the study team for the 2015 *Campus Climate Survey* reviewed policies on voluntary agreement from schools affiliated with AAU and the Consortium on Financing Higher Education. For the purposes of both surveys (2015 and 2019), these were defined as incidents that occur:

...without your active, ongoing voluntary agreement(.) Examples include someone:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent.

The questions used to collect these data are survey items G8 and G9. If this type of incident occurred as part of a previously reported incident involving physical force, inability to consent, or coercion, the event was not counted in the prevalence rate.

The rates of penetration and sexual touching without active, ongoing voluntary agreement are much higher than for coercion (Table 4.1). Overall, 5.7 percent of students reported that incidents occurred without active, ongoing voluntary agreement since entering Harvard University, with 2.5 percent indicating the incidents involved penetration and 4.0 percent indicating they involved sexual touching. Among undergraduates, 15.0 percent of women and 3.6 percent of men reported this type of victimization. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 5.6 percent of women and 1.8 percent of men reported they experienced this type of victimization. There is a statistical difference between graduate/professional women and men. Among TGQN students, 14.5 percent reported they experienced this type of victimization. There is not a statistical difference between TGQN students and undergraduate women.

²¹In 2015 this tactic was referred to “absence of affirmative consent.” As noted below, the methods used to measure this tactic are the same for the 2015 and 2019 surveys.

Number of Times without Active, Ongoing Voluntary Agreement

Table 4.2 contains estimates for the number of times students were victimized without active, ongoing voluntary agreement. Many of the victims experienced this more than one time. Overall, 2.8 percent of students experienced penetration or sexual touching involving this tactic two or more times since entering the school. Among undergraduates, 7.3 percent of women and 1.5 percent of men were victimized two or more times since entering the school. Among graduate/professional students, the percent victimized two or more times was 2.8 percent among women and 0.9 percent among men.

Prevalence of Incidents without Active, Ongoing Voluntary Agreement, by Student Characteristics²²

The rates of nonconsensual sexual contact without active, ongoing voluntary agreement varied across students with different backgrounds (Table 4.3). Overall, heterosexual students had a victimization rate of 4.2 percent and non-heterosexual students (gay or lesbian, other or multiple categories) had a rate of 11.3 percent.²³ The difference between heterosexual and non-heterosexual students is statistically significant. Among Hispanic or Latino students, 5.8 percent reported experiencing penetration or sexual touching without voluntary agreement, compared to 5.6 percent of non-Hispanic or Latino students. This is not statistically different. With respect to race, the rates are 5.8 percent for White students, 6.5 percent for Black students, 3.8 percent for Asian students, and 7.7 percent for students in Other and Multi Race groups. Students who indicated they have a disability had a prevalence rate of 9.9 percent, while 4.1 percent of students without a disability reported being victimized. There is a statistical difference between these two groups of students.

The prevalence rates of victimization without voluntary agreement for these same characteristics for women are presented in Table 4.4 for the two types of behaviors (penetration, sexual touching). For all women, heterosexual students had a victimization rate of 7.0 percent and non-heterosexual students 15.2 percent.²⁴ The difference between heterosexual and non-heterosexual students is statistically significant. Among Hispanic or Latino women, 9.8 percent reported experiencing penetration or sexual touching without

²²Estimates for coercion by victim characteristics were not estimated because of the low prevalence of this type of nonconsensual sexual contact.

²³The percentage for non-heterosexual students combines across categories that are listed in the table.

²⁴Ibid.

voluntary agreement, compared to 8.4 percent of non-Hispanic or Latino women. The difference is not statistically significant. With respect to race, the rates are 9.2 percent for White women, 7.9 percent for Black women, 5.8 percent for Asian women, and 11.1 percent for those in Other and Multi Race groups. There is a statistical difference between rates for White and Asian students. Women who indicated they have a disability had a prevalence rate of 13.2 percent, while 6.3 percent of women without a disability reported being victimized. There is a statistical difference between these two groups of students.

3.5 Total Experience with Nonconsensual Sexual Contact

To assess the overall risk of nonconsensual sexual contact, prevalence rates were calculated that combine the two behaviors that constitute sexual contact (penetration and sexual touching) and the four tactics discussed above (physical force or threat of physical force; inability to consent or stop what was happening; coercion; and without active, ongoing voluntary agreement) in several different ways. These rates were calculated for the period since enrolling in school.

The first two sets of estimates include two of the four tactics (i.e., physical force and inability to consent or stop what was happening) for the two behaviors (i.e., penetration and sexual touching). The remaining estimates add in the other types of tactics discussed above.

Overall, 8.5 percent of students reported nonconsensual sexual contact (penetration or sexual touching) since enrolling in the school because of physical force or inability to consent or stop what was happening (Table 4.6). This estimate excludes attempted, but not completed, penetration. With attempts included, the estimate goes up slightly to 8.7 percent. When the other two tactics measured on the survey (i.e., coercion and without active, ongoing voluntary agreement) are included, 12.4 percent of students reported at least one incident occurring since enrolling at Harvard University. These rates vary considerably by both gender and affiliation (Tables 4.7 and 4.8). Among undergraduates, 32.5 percent of women and 11.4 percent of men reported some type of nonconsensual sexual contact. There is a statistical difference between undergraduate women and men. Among graduate/professional students, 11.7 percent of women and 3.4 percent of men reported nonconsensual sexual contact. There is a statistical difference between graduate/professional women and men. Among TGQN students, 24.8 percent reported nonconsensual sexual contact. There is a statistical difference between TGQN students and undergraduate women.

Most of the estimates discussed in prior sections were for the time period since entering Harvard University. This mixes students who have been at the school for different periods of time. To standardize for the time period and get an overall picture of the risk for a student's entire time at the school on campus, estimates are provided for undergraduate students in their fourth year or higher (Table 4.9). This provides the prevalence rate for the period while attending Harvard University, which for many is a four-year period.²⁵ The rates of completed nonconsensual contact (penetration or sexual touching) by force or inability to consent are 29.5 percent for women and 10.1 percent for men.²⁶ When also including coercion and without active, ongoing voluntary agreement (and attempted penetration), the rates are 40.2 percent and 13.4 percent for women and men, respectively.

3.6 Frequency and Nature of Sexual Harassment, Intimate Partner Violence, and Stalking

The survey included measures of three other forms of misconduct: sexual harassment, stalking, and intimate partner violence (IPV). This section reviews the prevalence and characteristics associated with each of these types of behaviors.

Prevalence of Sexual Harassment

Harassment is defined as a series of behaviors that:

- interfered with the victim's academic or professional performance,
- limited the victim's ability to participate in an academic program, or
- created an intimidating, hostile, or offensive social, academic, or work environment.

This definition is consistent with the U.S. Equal Employment Opportunity Commission and the U.S. Department of Education's definitions of "hostile environment."²⁷

²⁵The exception is those that transferred to the college or university after their first year.

²⁶The TGQN group did not have adequate sample sizes to estimate a reliable rate.

²⁷For the EEOC definition, see http://www.eeoc.gov/laws/types/sexual_harassment.cfm. For the U.S. Department of Education definition, see http://www2.ed.gov/about/offices/list/ocr/docs/ocrshpam.html#_t1a.

The specific behaviors referenced on the survey were taken from several different scales measuring harassment. The respondent was asked if:

... a student, or someone employed by or otherwise associated with [University] did the following:

- made sexual remarks or told jokes or sexual stories that were insulting or offensive to you?
- made inappropriate or offensive comments about your or someone else's body, appearance, or sexual activities?
- said crude or gross sexual things to you or tried to get you to talk about sexual matters when you did not want to?
- used social or online media to send offensive sexual remarks, jokes, stories, pictures, or videos to you or about you that you did not want?
- continued to ask you to go out, get dinner, have drinks, or have sex even though you said "no?"

Respondents who answered "yes" to one or more of these items were then asked whether these behaviors led to any of the following consequences:

- Interfered with your academic or professional performance,
- Limited your ability to participate in an academic program, or
- Created an intimidating, hostile or offensive social, academic, or work environment.

This approach is different from the one taken in the 2015 *Campus Climate Survey*. In 2015, students were asked, in the same question, about harassing behaviors that had an impact on their academic or professional environment. As noted above, in 2019, students were first asked about experiencing harassing behavior. They were then asked a follow-up question that determined if the experience impacted their academic or professional environment. The change was made in 2019 based on evaluation of the 2015 data (Cantor, Townsend, & Sun, 2016).

Overall, 39.3 percent of students indicated that they had experienced at least one type of harassing behavior since entering school (Table 5.1). With respect to specific behaviors, 25.5 percent heard insulting or offensive sexual remarks or jokes; 30.9 percent heard inappropriate comments about their or someone else's body, appearance, or sexual activities; 13.1 percent heard sexual things or someone wanted them to talk about sexual matters when

they didn't want to; 4.9 percent were subjected to offensive sexual remarks to or about them through social or on-line media; and 7.8 percent had someone continually ask them out or to have sex even after saying "no."

To be considered harassment, respondents must have experienced at least one of the aforementioned behaviors and reported that the behavior interfered with their academic or professional performance, limited their ability to participate in an academic program, or created an intimidating, hostile, or offensive environment. Among all students, 17.7 percent experienced harassment. Among women, 32.2 percent of undergraduates and 21.9 percent of graduate/professional students reported harassment; this difference is statistically different. Among men, 10.4 percent of undergraduates and 8.8 percent of graduate/professional students reported harassment. This difference is not statistically different. Among TGQN students, 43.7 percent reported harassment. This estimate is statistically different from the estimate for undergraduate women.

Perpetrators Engaging in Sexually Harassing Behavior

Students who reported any type of harassing behavior since the beginning of the Fall 2018 term were asked how the individual(s) that engaged in the behavior were associated with Harvard University. The highest percentage of students reported 'Student' (85.6%) (Table 5.4). Among women, 4.9 percent of undergraduates said faculty or an instructor was the offender, while 25.5 percent of those in graduate/professional school reported this association. The estimates are statistically different.

Students were asked about their relationship to the perpetrator across all of their experiences with harassing behavior. Among all students who experienced harassing behavior, 37.7 percent said that the person was a friend, 49.5 percent said it was a classmate, 33.7 percent said it was someone they recognized (but not a friend), and 9.8 percent said it was someone they did not know or recognize. Among women, 8.9 percent of undergraduates reported the person was a teacher, advisor, boss, supervisor, or co-worker compared to 31.0 percent of graduate/professional students.²⁸ There is a statistical difference between these two groups. Among men, 27.9 percent of graduate/professional students said it was a

²⁸ Respondents could select multiple offender types. The percentage in the report is based on number of respondents who selected at least one offender type (unduplicated counts of respondents). Therefore, the sum of percentages for the offender types in the table may differ from the percentage in the report.

teacher, advisor, boss, supervisor, or co-worker compared to 5.6 percent of undergraduates.²⁹ There is a statistical difference between these two groups.

Intimate Partner Violence

Intimate partner violence (IPV) refers to non-sexual violence among intimate partners. The section of the survey used to measure IPV was administered to students who said they had been in a partnered relationship since entering Harvard University. “Partnered relationship” was defined as including (survey item A13):

- marriage or civil union
- domestic partnership or cohabitation
- steady or serious relationship
- other ongoing relationship involving physical or sexual contact

The section of the survey on IPV (section F) included a series of items asking about different forms of non-sexual violence. To be classified as a victim, respondents had to say that a partner had done one of the following:

- controlled or tried to control you. Examples could be when someone:
 - kept you from going to classes or pursuing your educational goals
 - did not allow you to see or talk with friends or family
 - made decisions for you, such as where you go or what you wear or eat
 - threatened to “out” you to others
- threatened to physically harm you, someone you love, or him- or herself
- used any kind of physical force against you or otherwise physically hurt or injured you. Examples could be when someone:
 - bent your fingers or bit you
 - choked, slapped, punched, or kicked you
 - hit you with something other than a fist

²⁹Ibid.

- attacked you with a weapon

Overall, 73.7 percent of students reported they had been in a partnered relationship since entering Harvard University (Table A). Among those in a partnered relationship, 6.6 percent of students indicated that they had experienced at least one type of intimate partner violence (Table 5.5). With respect to specific behaviors, 4.5 percent had partners that exerted controlling behavior; 2.8 percent reported their partner threatened to physically harm them, someone they loved, or him/herself; and 2.0 percent reported their partner used physical force or otherwise physically hurt or injured them.

Among women, 11.6 percent of undergraduates and 5.5 percent of graduate/professional students reported experiencing at least one type of intimate partner violence. There is a statistically significant difference between these groups. Among men, 7.5 percent of undergraduates and 5.2 percent of graduate/professional students reported this experience. There is a statistically significant difference between these groups. Among TGQN students, 16.8 percent reported this type of experience. There is not a statistically significant difference between undergraduate women and TGQN students.

Stalking

Relative to the 2015 survey, the 2019 survey changed the definition and questions used to measure stalking. Since 2015, the criterion of “causing substantial emotional distress” (one factor that constitutes stalking) has been added to a number of stalking laws around the country and was added to the 2019 survey. This change also led to modifying the way the questions were asked.

Survey items on stalking were based on definitions and behaviors used in the National Intimate Partner and Sexual Violence Survey (Black et al., 2011), the National Crime Victimization Survey (Bureau of Justice Statistics, 2017), and the National Violence Against Women Survey (Tjaden & Thoennes, 1998). To be considered stalking, the behavior had to occur more than once and be committed by the same person or persons. In addition, these behaviors had to make the victim either afraid for their personal safety or cause substantial emotional distress.

To measure stalking behavior, respondents were first asked whether someone:

- made unwanted phone calls; sent emails, voice, text, or instant messages to you; or posted unwanted messages, pictures, or videos on social media to or about you or elsewhere online
- showed up somewhere uninvited or waited for you when you did not want that person to be there
- spied on, watched, or followed you in person, or monitored your activities or tracked your location using devices or software on your phone or computer.

Respondents who reported that one or more of these behaviors occurred were then asked if one person had done any of these things on more than one occasion. Those who said “yes” were then asked if these behaviors made them afraid for their personal safety or caused them substantial emotional distress.

Overall, 11.2 percent of students indicated that they had experienced at least one type of stalking behavior since enrolling in school (Table 5.9). With respect to specific behaviors, 6.5 percent were victims of unwanted phone calls, emails, or texts, or someone posted unwanted messages, pictures, or videos of them; 5.8 percent had someone show up uninvited or waited for them; 2.1 percent reported someone spied on them, watched or followed them, monitored their activities, or tracked them.

Among all students, 4.2 percent experienced at least one of these behaviors, someone committed them more than once, and the experiences made them afraid for their safety and/or caused substantial emotional distress. Among undergraduates, 8.1 percent of women and 2.5 percent of men reported this experience. There is a statistically significant difference between these groups. Among students in graduate/professional school, 5.3 percent of women and 1.9 percent of men reported this experience. There is a statistically significant difference between these groups. Among TGQN students, 8.5 percent reported this type of experience. There is not a statistically significant difference between undergraduate women and TGQN students.

Students who reported being stalked were asked how the individual(s) that engaged in the behavior were associated with Harvard University. The most common association with the school for those engaging in this behavior was ‘Student.’ For example, among undergraduates, 77.5 percent and 78.1 percent were “Student” for women and men, respectively (Table 5.12).

Among graduate/professional women, 4.4 percent reported a faculty member or instructor engaged in this behavior.

Students were asked what their relationship was to the perpetrator. Among undergraduate women, 32.9 percent said that the person was a friend, 17.9 percent said it was a classmate, 38.9 percent said it was someone they recognized (but not a friend), and 9.3 percent said it was someone they did not know or recognize. Among graduate/professionals, 14.2 percent of women reported the person was a teacher, advisor, boss, supervisor, or co-worker.³⁰ This compares to 5.9 percent of undergraduate women. There is a statistical difference between these two groups.

Prevalence Rates by Student Characteristics for Sexual Harassment, IPV, and Stalking

The rates of sexually harassing behavior, IPV, and stalking vary by student characteristics (Table 5.13). For harassing behavior, heterosexual students had a prevalence rate of 35.8 percent and non-heterosexual students (gay or lesbian, other or multiple categories) a rate of 53.6 percent.³¹ The difference between heterosexual students and non-heterosexual students is statistically different. Among Hispanic or Latino students, 38.5 percent reported experiencing harassing behavior, compared to 39.4 percent of non-Hispanic or Latino students. This difference is not statistically different. With respect to race, the rates are 39.5 percent for White students, 44.8 percent for Black students, 34.9 percent for Asian students, and 43.4 percent for those in Other and Multi Race groups. Students who indicated they have a disability had a prevalence rate of 49.7 percent, while 35.5 percent of students without a disability reported being victimized. There is a statistical difference between these two groups of students.

For intimate partner violence, heterosexual students had a victimization rate of 5.9 percent and non-heterosexual students a rate of 9.8 percent.³² The difference between heterosexual and non-heterosexual students is statistically different. Among Hispanic or Latino students, 7.6 percent reported experiencing harassing behavior, compared to 6.5 percent of

³⁰Respondents could select multiple offender types. The percentage in the report is based on number of respondents who selected at least one offender type (unduplicated counts of respondents). Therefore, the sum of percentages for the offender types in the table may differ from the percentage in the report.

³¹The percentage for non-heterosexual students combines across categories that are listed in the table.

³²Ibid.

non-Hispanic or Latino students. This difference is not statistically different. With respect to race, the rates are 6.6 percent for White students, 7.3 percent for Black students, 4.4 percent for Asian students, and 10.1 percent for those in Other and Multi Race groups. Students who indicated they have a disability had a prevalence rate of 11.2 percent, while 5.0 percent of students without a disability reported being victimized. There is a statistical difference between these two groups of students.

For stalking, heterosexual students had a prevalence rate of 3.5 percent and non-heterosexual students a rate of 6.7 percent.³³ The difference between heterosexual and non-heterosexual students is statistically different. Among Hispanic or Latino students, 4.2 percent reported experiencing harassing behavior, the same as non-Hispanic or Latino students. This difference is not statistically different. With respect to race, the rates are 3.9 percent for White students, 4.6 percent for Black students, 3.7 percent for Asian students, and 6.1 percent for those in Other and Multi Race groups. Students who indicated they have a disability had a prevalence rate of 8.1 percent, while 2.9 percent of students without a disability reported being victimized. There is a statistical difference between these two groups of students.

3.7 Changes since the 2015 AAU Survey

In 2015, Harvard University participated in the first *Campus Climate Survey*. In this section, selected victimization and campus community measures from 2015 are compared to those in the 2019 survey. The measures compared in this section are among those for which the question wording did not change between 2015 and 2019. In each case, a statistical test was completed to assess whether the difference is statistically significant.³⁴ The sample sizes for most of these comparisons are large because they are based on all undergraduates or all graduate/professional students. This means that relatively small changes, which may not be substantively meaningful, will be significant. There are other possible differences between the two surveys. For example, there may be differences in the types of students that took the survey. In 2015, the response rate was 53.2 percent, whereas in 2019, it was 36.1 percent. The estimates incorporate the same non-response adjustment for each year, which should guard

³³Ibid.

³⁴The significance tests assume the two surveys are independent samples. The two surveys are spaced 4 years apart. Most, but not all, of the student population has turned over between surveys. For example, approximately 11.9 percent of the 2019 respondents first enrolled in 2014 or earlier. Theoretically these students were eligible to take the survey in both 2015 and 2019.

against differences due to non-response. But the larger the change in response rate between years, the greater the chance non-response may affect the comparisons.

Prevalence of Nonconsensual Sexual Contact

Table 7.1 shows the percentage of students who reported experiencing nonconsensual sexual contact for: 1) physical force or inability to consent, 2) coercion, and 3) without active, ongoing voluntary agreement. The measures described below are for experiences since the student was first enrolled in Harvard University.

For undergraduate women, there is not a statistically significant change in the prevalence of nonconsensual sexual contact (penetration or sexual touching) by physical force or inability to consent since entering the school. In 2015, 25.5 percent reported this type of victimization, compared to 24.0 percent in 2019. For women who are graduate/professional students, there is not a statistically significant change. In 2015, 7.6 percent reported this type of victimization, compared to 8.0 percent in 2019. For students who identify as TGQN, there is not a statistically significant change in this rate. In 2015, 20.0 percent reported this type of victimization, compared to 16.5 percent in 2019.

For undergraduate men, there is a statistically significant change in the prevalence of nonconsensual sexual contact (penetration or sexual touching) by physical force or inability to consent. The rate went up between 2015 and 2019. In 2015, 6.5 percent reported this type of victimization, compared to 8.4 percent in 2019. For men who are graduate/professional students, there is not a statistically significant change. In 2015, 1.7 percent reported this type of victimization, compared to 1.8 percent in 2019.

For undergraduate women, there is a statistically significant change in the prevalence of nonconsensual sexual contact by coercion or without active, ongoing voluntary agreement. The rate went down between 2015 and 2019. In 2015, 17.4 percent reported this type of victimization, compared to 15.2 percent in 2019. For women who are graduate/professional students, there is a statistically significant change. The rate went down between 2015 and 2019. In 2015, 6.8 percent reported this type of victimization, compared to 5.7 percent in 2019. For students who identify as TGQN, there is not a statistically significant change in this rate. In 2015, 15.0 percent reported this type of victimization, compared to 14.5 percent in 2019.

For undergraduate men, there is not a statistically significant change in the prevalence of nonconsensual sexual contact by coercion or without active, ongoing voluntary agreement. In

2015, 4.1 percent reported this type of victimization, compared to 3.8 percent in 2019. For men who are graduate/professional students, there is not a statistically significant change. In 2015, 1.6 percent reported this type of victimization, compared to 1.9 percent in 2019.

Changes in Perceptions of Risk and Knowledge of Resources

Table 7.2 shows estimates of different perceptions of risk and knowledge of resources for the 2015 and 2019 surveys. In both surveys, students were asked, “How problematic is sexual assault or (other)³⁵ sexual misconduct at [University]?” For undergraduate women, there is a statistically significant change in the percentage of students who reported it was very or extremely problematic. The rate went up between 2015 and 2019. In 2015, 31.9 percent had this perception compared to 35.9 percent in 2019. For graduate/professional women, there is a statistically significant change in this percentage. The rate went up between 2015 and 2019. In 2015, 11.3 percent reported this compared to 20.3 percent in 2019.

In both surveys, students were asked, “How knowledgeable are you about how sexual assault and (other)³⁶ sexual misconduct are defined at [University]?” For undergraduate women, there is a statistically significant change in the percentage of students who reported they were very or extremely knowledgeable. The rate went up between 2015 and 2019. In 2015, 14.0 percent reported this level of knowledge compared to 35.8 percent in 2019. For graduate/professional women, there is a statistically significant change in this percentage. The rate went up between 2015 and 2019. In 2015, 11.8 percent reported this compared to 30.7 percent in 2019.

In both surveys, students were asked, “How knowledgeable are you about where to get help at [University] if you or a friend experienced sexual assault or (other)³⁷ misconduct?” For undergraduate women, there is a statistically significant change in the percentage of students who reported they were very or extremely knowledgeable about where to get help. The rate went up between 2015 and 2019. In 2015, 36.6 percent reported this level of knowledge compared to 47.6 percent in 2019. For graduate/professional women, there is a statistically

³⁵2015 wording did not include “other” in the question.

³⁶bid.

³⁷bid.

significant change in this percentage. The rate went up between 2015 and 2019. In 2015, 19.0 percent reported this level of knowledge compared to 36.8 percent in 2019.

In both surveys, students were asked, “How knowledgeable are you about where to make a report of sexual assault or (other)³⁸ sexual misconduct at [University]?” For undergraduate women, there is a statistically significant change in the percentage of students who reported they were very or extremely knowledgeable. The rate went up between 2015 and 2019. In 2015, 20.5 percent reported this level of knowledge compared to 32.3 percent in 2019. For graduate/professional women, there is a statistically significant change in the percentage who reported they were very or extremely knowledgeable. The rate went up between 2015 and 2019. In 2015, 15.9 percent reported this level of knowledge compared to 31.5 percent in 2019.

In both surveys, students were asked, “How knowledgeable are you about what happens when a student reports an incident of sexual assault or (other)³⁹ sexual misconduct at [University]?” For undergraduate women, there is a statistically significant change in the percentage of students who reported they were very or extremely knowledgeable. The rate went up between 2015 and 2019. In 2015, 8.7 percent reported this level of knowledge compared to 18.4 percent in 2019. For graduate/professional women, there is a statistically significant change in the percentage who reported they were very or extremely knowledgeable. The rate went up between 2015 and 2019. In 2015, 6.3 percent reported this level of knowledge compared to 17.2 percent in 2019.

Appendix 1. Instrument Development and Survey Instrument

A1.1 Survey Design Teams and Instrument Development

As mentioned in Section 2.1, the 2019 *Campus Climate Survey* is a revised version of the survey administered in 2015.¹ The process of refining the 2015 *Campus Climate Survey* for administration in 2019 was a collaboration between the Westat and AAU Survey Design Teams (SDT). The Westat team was co-chaired by Co-Principal Investigators, Dr. David Cantor, Senior Statistical Fellow at Westat and research professor at the Joint Program for Survey Methodology, University of Maryland, and Dr. Bonnie Fisher, Professor, School of Criminal Justice, University of Cincinnati. The AAU SDT was co-chaired by Dr. Christina Morell, Associate Provost for Institutional Assessment and Studies, University of Virginia, and Dr. Lily Svensen, Director, Office of Institutional Research, Yale University. They were joined by a multi-disciplinary group of college and university professors and administrators from participating IHEs with expertise in survey design and methodology and issues related to sexual assault and misconduct on campus. Members of the AAU SDT are presented in Table A1-1.

During meetings, AAU SDT members discussed at length conceptual and methodological issues underlying the measurement of sexual victimization and other misconduct, and campus community constructs. Team members began the refinement process by systematically reviewing 2015 survey content and associated data to identify items that could be added, removed, or improved. Participating schools were asked to comment on the 2015 survey. Survey revisions were prioritized based on factors such as alignment of items with relevant definitions (e.g., stalking, sexual harassment). The team carefully considered other factors or survey item elements, such as extensiveness of proposed changes (e.g., slight modifications to response categories), appropriateness of response option categories (e.g., ability of respondents to distinguish instructors from teaching assistants as perpetrators of sexual assault or other misconduct, as opposed to a combined category), and comprehensiveness of survey items and response options (e.g., expand list of options for perpetrator's association with the school). Team members made final decisions on all proposed changes, while continuing to be mindful of respondent burden (maintaining the time of survey completion to between 15 and

¹ For additional information on the 2015 *Campus Climate Survey*, including survey development processes, please see <https://www.aau.edu/sites/default/files/AAU-Files/Key-Issues/Campus-Safety/AAU-Campus-Climate-Survey-FINAL-10-20-17.pdf>.

20 minutes). Overall, the SDT retained the survey structure and many items that were developed for the 2015 *Campus Climate Survey*. See Appendix 2 for a comparison of 2015 and 2019 surveys.

Table A1-1. The AAU Survey Design Team

AAU Survey Design Team Members	
Kellie Brennan	The Ohio State University Compliance Director and Title IX/Clery Coordinator
Brian Cook	Stanford University Director of Assessment and Program Evaluation
Robert Coulter	University of Pittsburgh Postdoctoral Scholar, University of Pittsburgh School of Medicine Department of Behavioral and Community Health Sciences—Graduate School of Public Health Center for LGBT Health Research—Graduate School of Public Health Division of Adolescent and Young Adult Medicine, Children’s Hospital of Pittsburgh of UPMC
Marne K. Einarson	Cornell University Assistant Director, Office Institutional Research and Planning
Karen Heimer	University of Iowa Professor, Department of Sociology
Marlena Holden	University of Wisconsin-Madison Interim Director, Marketing and Prevention Services
Nicole Merhill	Harvard University Title IX Officer
Christina Morell	University of Virginia Associate Provost, Institutional Assessment and Studies
Jagruti (Jag) Patel	Massachusetts Institute of Technology Senior Director, Special Projects
Audrey Pettifor	University of North Carolina-Chapel Hill Professor, Department of Epidemiology; Faculty Fellow, Carolina Population Center
Nora Cate Schaeffer	University of Wisconsin-Madison Sewell Bascom Professor of Sociology Faculty Director, University of Wisconsin Survey Center
Liam Schwartz	Harvard University Assistant Provost, Institutional Research
Lara Stemple	University of California-Los Angeles Assistant Dean, Graduate Studies and International Student Programs Director, Health and Human Rights Law Project
Lily Svensen	Yale University Director, Office of Institutional Research
Madelyn Wessel	Cornell University University Counsel and Secretary of the Corporation
Min Xie	University of Maryland-College Park Associate Professor, Department of Criminology and Criminal Justice, Director of Graduate Studies

The SDT met regularly (weekly or twice weekly) from June 2018 through October 2018 to discuss and make final decisions on survey content. Meetings lasted, on average, two hours. Some team members communicated outside of formal team meetings to provide technical

expertise on survey design, review survey drafts and provide feedback, and resolve issues raised during meetings. SDT members regularly consulted with experts on their campuses for particular issues, such as asking about gender, bystander behavior, and disability.

The SDT also sought feedback from the participating schools. It released the first draft of the survey to schools in August 2018. The SDT requested feedback on the second draft of the survey in October 2018. All comments the SDT received on drafts of the survey were reviewed and adjudicated by the team in preparation for survey finalization, which occurred in November 2018.

A1.2 Student Input

The team received feedback from students in three ways:

- First, Westat conducted 19 in-person cognitive interviews with students currently attending colleges or universities. Interviews were conducted at two different locations in Maryland.
- Second, students from several SDT members' schools conducted survey pretesting. Pretesting methods used varied by IHE, and included focus-group style discussions with student groups, and a self-administered web instrument with text-boxes for feedback on survey questions.
- Finally, the final web instrument was pretested with students at an IHE that did not participate in the survey. Students were asked to provide feedback on functionality and navigability of the web-based platform, as well as survey content.

The feedback from these activities included a wide range of comments on both the content and wording of the questions. For example, the cognitive interviews pointed to response categories that were unclear or misunderstood. The SDT modified these categories to clarify meaning, and to use language more familiar to the student population.

Another example comes from feedback from the students and student groups at design team IHEs, which helped the team to revise the methods for asking about respondent gender identity.

A1.3 Survey Content and Sources

Survey topics in the 2019 *Campus Climate Survey* cover domains outlined by AAU in response to requests of Presidents/Chancellors from member colleges and universities during

the development of the 2015 survey. These topics were split into several basic categories – 1) direct personal experience with sexual assault and other misconduct, 2) campus community, 3) school resources, and 4) student characteristics. This section describes the items. For additional information on processes for making decisions on operationalization of the constructs, please see the *2015 Report on the AAU Campus Climate Survey on Sexual Assault and Sexual Misconduct*.²

Personal Experience: Nonconsensual Sexual Contact

Students were asked about nonconsensual sexual contact that occurred as a result of four types of tactics: 1) physical force, 2) inability to consent or stop what was happening, 3) coercion, and 4) without active, ongoing voluntary agreement. Survey items were designed to: 1) estimate the prevalence and incidence of nonconsensual sexual contact experienced by students enrolled in IHEs (undergraduate, graduate/professional) on each participating campus, and 2) identify characteristics of these experiences (e.g., location, offender characteristics). The term “incidence” refers to the number of times a particular type of sexual assault or other misconduct occurred over a period of time. Among those that reported an incident of nonconsensual sexual contact, the students were asked about details for up to four incidents.

Sexual contact includes two behaviors—penetration and sexual touching. Penetration refers to sexual penetration of someone’s vagina or anus by a finger, penis, or object; and oral sex by a mouth or tongue on someone’s genitals. Sexual touching includes kissing; touching someone’s breast, chest, crotch, groin, or buttocks; or grabbing, groping, or rubbing against the other in a sexual way, even if the touching is over the other’s clothes.

Tactics Involving Physical Force and Inability to Consent or Stop What Was Happening

Five survey items were used to separate the different types of sexual contact for these two tactics. Physical force/attempted physical force includes someone being held down with the offender’s body weight, arms being pinned down, being hit or kicked, or the use or threat of use of a weapon against the victim. The inability to consent or stop what was happening refers

² <https://www.aau.edu/sites/default/files/AAU-Files/Key-Issues/Campus-Safety/AAU-Campus-Climate-Survey-FINAL-10-20-17.pdf>.

to the occurrence of an incident because the victim was passed out, asleep, or incapacitated due to drugs or alcohol.

These tactics were considered the most serious types of tactics and constitute the primary measures used on several other surveys (e.g., Krebs, Lindquist, Warner, Fisher, & Martin, 2009).³ As noted above, the questions distinguished between different combinations of these tactics and the two types of sexual contact, including the following:

- Nonconsensual completed penetration that occurred as a result of physical force or threats of physical force,
- Nonconsensual unsuccessful attempts at penetration (not completed), involving physical force or threats of force,
- Nonconsensual completed penetration that occurred as a result of the victim's inability to consent or stop what was happening,
- Nonconsensual completed sexual touching that occurred as a result of physical force,
- Nonconsensual completed sexual touching that occurred as a result of the victim's inability to consent or stop what was happening.

The type of behavior and tactic are included in the same question, based on an approach advocated by Krebs et al. (2009).⁴ The approach has been successfully used in prior research on sexual victimization among college students (e.g., Krebs et al., 2009).⁵ The survey included five questions to screen for nonconsensual or unwanted sexual contact. Each screen question provided definitions and examples of each sexual contact type and tactic.

Coercion and Without Active, Ongoing Voluntary Agreement

Coercion was intended to capture nonconsensual sexual contact involving threats of serious non-physical harm or promising rewards such that the student felt she or he must comply. This tactic was intended to capture behaviors that were violations of the student's personal or civil rights. It complemented the items asked in another section of the survey on

³ Krebs, C.P., Lindquist, C.H., Warner, T.D., Fisher, B.S., & Martin, S.L. (2009). College Women's Experiences with Physically Forced, Alcohol- or Other Drug-Enabled, and Drug-Facilitated Sexual Assault Before and Since Entering College. *Journal of American College Health*, 57(6), 639-647.

⁴ Ibid

⁵ Ibid

sexual harassment by focusing on nonconsensual sexual contact as opposed to verbal or other harassing behaviors.

Incidents that occur without the student's active, voluntary agreement is the fourth tactic on which students report in the survey. This tactic was included in the survey to estimate the prevalence and incidence of nonconsensual penetration and sexual touching among students at the participating IHEs, given that many college and university websites include a definition related to voluntary agreement (e.g., in the student code of conduct).

Collecting Details About the Incidents

The incidence (number of times) and prevalence of sexual assault and other misconduct were measured through the survey. The survey also included questions about when the incidents occurred: 1) since the student was enrolled at the IHE, and 2) during the current academic year (2018-2019).

To measure the timing and incidence of each type of nonconsensual sexual contact, students answered a series of follow-up questions on the number of incidents and the year in which an incident occurred. Affirmative responses to the initial screening items also followed with questions about the occurrence of a specific combination of behavior and tactic, beginning with the number of times each type of incident occurred. For each incident the respondent identified the year it occurred and whether the incident had already been reported in response to an earlier question. The latter question was used to obtain unduplicated counts of events in which the respondent reported more than one tactic. This structure allowed analysts to form prevalence and incidence rates for incidents that occurred since the student enrolled in the school, as well as for incidents that occurred during the current academic year.

After counting all incidents reported during the screening, more details were collected about each type of incident. The Detailed Incident Form (DIF) was administered up to four times for incidents that impacted or affected the respondent the most, relative to penetration or sexual touching involving 1) physical force or threats of physical force, 2) inability to consent or stop what was happening, 3) coercion, and 4) absence of active, voluntary agreement.

Students responded to a range of additional follow-up questions about an incident to understand the context of sexual assault. The content of the follow-up questions used in the DIF include: time of occurrence (school year; during an academic break or recess); location of incident (on or off campus, specific location); perpetrator characteristics (number of offenders,

gender of offender, type of nonconsensual or unwanted behavior and tactic, offender affiliation with school, relationship to victim); context prior to the incident (respondent's voluntary consumption of alcohol or drugs, respondent's use of alcohol or drugs without his or her knowledge or consent, offender's use of alcohol or drugs); disclosure to other persons; use of programs or resources; reasons for not using programs or resources; and outcomes (e.g., physical injuries, pregnancy, academic consequences, and psychosomatic symptoms).

Personal Experience: Sexual Harassment, Intimate Partner Violence, and Stalking

The measures of other misconduct collected were sexual harassment, intimate partner violence, and stalking.

To meet the legal definition of harassment there are two criteria. First, as per the U.S. Equal Employment Opportunity Commission (EEOC)⁶ and U.S. Department of Education,⁷ the behavior has to create a "hostile or offensive work or academic environment." The series of questions on sexual harassment include portions of Leskinen and Kortina's (2014)⁸ scale representing each of the major dimensions, with a few additional behaviors that are not covered by the scale. Questions on sexual harassment include the following behaviors:

- Made sexual remarks or told sexual jokes or sexual stories that were insulting or offensive to the victim;
- Made inappropriate or offensive comments about the victim or someone else's body, appearance, or sexual activities;
- Said crude or gross sexual things to the victim or tried to get the victim to talk about sexual matters when she or he did not want to;
- Used social or on-line media to send offensive sexual remarks, jokes, stories, pictures, or videos to the victim or about the victim that she or he did not want; and
- Continued to ask the victim to go out, get dinner, have drinks, or have sex even though the victim said "no."

⁶ http://www.eeoc.gov/laws/types/sexual_harassment.cfm

⁷ http://www2.ed.gov/about/offices/list/ocr/docs/ocrshpam.html#_t1a

⁸ Leskinen, E.A., & Cortina, L.M. (2014) Dimensions of disrespect: Mapping and measuring gender harassment in organizations. *Psychology of Women Quarterly*, 38(1), 107-123.

A second question is how to use these items when operationalizing the EEOC concept of “hostile work environment.” According to legal definitions, to meet this standard, the behavior has to be either “frequent or severe.” Most prior studies do this by asking whether a behavior occurred a specific number of times (e.g., 2014 MIT Community Attitudes on Sexual Assault Survey).⁹ Other campus climate surveys do not measure frequency and it is not clear how one can determine the threshold for a “hostile work environment.”

For the AAU survey, respondents who reported that they had experienced one or more of the aforementioned sexually harassing behaviors were asked if the experience(s) interfered with their academic or professional performances; limited their ability to participate in an academic program; or created an intimidating, hostile, or offensive social, academic, or work environment. The experience of a sexually harassing behavior that affected the victim in at least one of these ways parallels EEOC’s definition regarding a “hostile environment,” and the U.S. Department of Education’s guidelines related to student protection from harassment.¹⁰

The question wording for intimate partner violence is a combination of the wording used in the University of New Hampshire 2012 survey, as cited in the White House Task Force report (White House Task Force to Protect Students From Sexual Assault, 2014),¹¹ and the National Intimate Partner and Sexual Violence Survey (NISVS) conducted by the Centers for Disease Control and Prevention (Black et al., 2011).¹² Only those individuals who were in a partnered relationship since enrolling at the school were prompted to respond to a series of questions about intimate partner violence. To make this determination, the team developed a definition of a partnered relationship to capture various forms of ongoing relationships involving physical or sexual contact in which college students are likely to engage, including steady or serious relationships and marriage, civil union, domestic partnerships, or cohabitations. This question was asked in the demographic section of the survey.

⁹ <https://chancellor.mit.edu/sites/default/files/pdf/MITCommunityAttitudesonSexualAssault-Survey.pdf>

¹⁰A federal law, *Title IX of the Education Amendments of 1972 (Title IX)*, prohibits discrimination on the basis of sex, including sexual harassment, in education programs and activities. All public and private education institutions that receive any federal funds *must* comply with *Title IX*. *Title IX* protects students from harassment connected to any of the academic, educational, extracurricular, athletic, and other programs or activities of schools, regardless of the location. *Title IX* protects students, both men and women, from sexual harassment by any school employee, another student, or a non-employee third party.

¹²Black, M.C., et al. (2011). *The National Intimate Partner and Sexual Violence Survey (NISVS): 2010 Summary Report*. Atlanta, GA: National Center for Injury Prevention and Control, Centers for Disease Control and Prevention.

Fear is the criterion that distinguishes sexual harassment from stalking (Catalano, 2012; Logan, 2010).^{13 14} For the *Campus Climate Survey*, stalking was defined as repetitive behavior that caused fear or substantial emotional distress in a reasonable person. Three repeated pursuit behaviors associated with stalking are used in the survey, including:

- Made unwanted phone calls, sent emails, voice, text, or instant messages, or posted messages, pictures, or videos on social media, or elsewhere online;
- Showed up somewhere uninvited or waited for the victim when she or he did not want that person to be there; and
- Spied on, watched, or followed the victim in person, or monitored the victim's activities or tracked his/her location using devices or software on a phone or computer.

Within the past decade, the use of new technologies (e.g., smartphone), related to the third tactic listed above, has emerged as a tactic for stalking. For example, Black et al. (2011)¹⁵ found that this tactic was the third most frequently occurring stalking behavior in the NISVS (39% for women and 31% for men reported experiencing behavior related to this tactic). It was also the third most frequently occurring behavior stalking victims reported experiencing in the NCVS (34.4%; Catalano, 2012).¹⁶

The same or a very similar set of follow-up questions were asked for sexual harassment, intimate partner violence, and stalking. Respondents were asked questions about:

- Offender characteristics, including gender, number of offenders or if the same offender committed the behavior more than once, number of incidents, association with the school, and relationship to the victim;
- Disclosure of information about the incident and to whom; and
- Contact with campus-sponsored programs about the incident.

¹³Catalano, S. (2012). *Stalking victims in the United States—revised*. (NCJ 224527). Washington, D.C.: U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Statistics.

¹⁴Logan, T. (2010). *Research on partner stalking: Putting the pieces together*. Lexington, KY: University of Kentucky, Department of Behavioral Science & Center on Drug and Alcohol Research.

¹⁵Black, M.C., et al. (2011). *The National Intimate Partner and Sexual Violence Survey (NISVS): 2010 summary report*. Atlanta, GA: National Center for Injury Prevention and Control, Centers for Disease Control and Prevention.

¹⁶Catalano, S. (2012). *Stalking victims in the United States—revised*. (NCJ 224527). Washington, D.C.: U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Statistics.

Respondents who contacted a program about the incident identified the time period (e.g., Fall of 2017-Summer of 2018) of the most recent contact, while victims who did not contact any programs following the incident were asked to provide reasons for not contacting them.

Student Perceptions and Knowledge

Topics and questions on perceptions of the campus community were drawn from five existing surveys that measured this construct—the Rutgers Campus Climate Survey (McMahon, 2018),¹⁷ the MIT Community Attitudes on Sexual Assault Survey (Massachusetts Institute of Technology, 2014),¹⁸ the University of Oregon Sexual Violence and Institutional Behavior Campus Survey (Freyd, Rosenthal, & Smith, 2014),¹⁹ the White House Task Force report (White House Task Force to Protect Students From Sexual Assault, 2014),²⁰ and the Campus Sexual Assault Study (Krebs et al., 2017).²¹ Topics included campus community members' attitudes toward each other, the school's efforts to inform students about sexual assault and other misconduct, perception of community safety, knowledge and use of police and resources, perceptions of leadership, policies and reporting, prevention training, and bystander intervention. Survey items on perception of the campus community in relation to sexual assault and other misconduct include the following constructs:

- Perception regarding risk;
- Knowledge and perceptions about resources;
- Prevention trainings for students;
- Perceptions of responses by school officials to incident reporting;
- Bystander behavior; and

- Students' experiences within the campus community (e.g., connection to the campus community, ease of seeking advice from faculty or staff, concern about student well-being).

Two types of questions on risk perceptions were administered. One asked about the likelihood of being a victim of sexual assault or other misconduct in the future while enrolled in school. The second asked students how problematic they thought sexual assault and other misconduct were at the IHE.

Students were asked about their awareness of the services and resources the school offered to those who were affected by sexual assault and other misconduct. Additional questions gauge students' knowledge of the definition of sexual assault and other misconduct at the IHE; where to get help at the school if the student or a friend experienced sexual assault or other misconduct; where to make a report of sexual assault or other misconduct at the school; and what happens when a student reports an incident of sexual assault or other misconduct at the school.

All students were asked if they completed training modules or information sessions related to sexual assault or other misconduct as an incoming student or since arriving at the school, and the topics the modules/sessions covered.

Additionally, all students were asked their perceptions of how school officials would respond after reports of sexual assault or other misconduct. Specifically, students were asked to assess the likelihood of officials taking the report seriously and conducting a fair investigation.

The original questions used in the 2015 survey measuring bystander behaviors and interventions were adapted from Banyard et al.'s (2005, 2014)^{22 23} work and Rutgers' Campus Climate Survey (McMahon, 2018).²⁴ A working group of the SDT reviewed the items that were used in 2015. The items were adapted based on their experience with analysis of the 2015 survey and the use of bystander trainings on their campuses. The final set of questions was the

²⁴McMahon, S. (2018). #ISPEAK: Rutgers Campus Climate Survey. Retrieved from <https://socialwork.rutgers.edu/file/4402/download>

result of extensive discussions by the working group, the SDT, and consultation with those designing the training programs on campuses.

The questions ask respondents if they had ever experienced four specific situations since being a student at the IHE (e.g., witnessed a situation that the respondent believed could have led to a sexual assault). If they had experienced the situation, they were asked what specific action, if any, they took. Examples of possible actions taken include doing nothing because the student was not sure what to do, and seeking help from a friend.

School Resources

Students who were victims of behavior associated with sexual harassment, stalking, intimate partner violence, and/or nonconsensual or unwanted sexual contact and who contacted a school program about the incident were asked to respond to questions about their experiences with the programs. For each program contacted, respondents reported: 1) the degree to which the program was useful in helping them, and 2) whether they felt pressure to report or file a complaint.

Student Characteristics

Questions asking about the students' demographics are posed at the beginning of the survey. Background information collected included age, current student affiliation (undergraduate, graduate, professional), class or program year, race, Hispanic or Latino origin, resident status, gender identity, sexual orientation, relationship status, and identification as a student with a disability. Some of the information was used in the weighting procedure, such as age and class year in school. Other demographic information was used to assess incidence and prevalence of sexual assault and other misconduct among students in a particular school for a particular demographic group (e.g., affiliation, gender identity, sexual orientation). A question about involvement in partnered relationships (marriage or civil union, domestic partnership or cohabitation, steady or serious relationship, or other ongoing relationship involving physical or sexual contact) since enrolling at the school was used to identify relevant students for intimate partner violence estimates.

SDT members had multiple rounds of discussions about the wording of survey items related to sexual orientation and gender identity. They also solicited feedback from students to gain perspective on the most appropriate terms. Response options used in the survey take into consideration existing research on gender and sexual identity and suggestions from the SDT.

A1.4 The Instrument: The Campus Climate Survey on Sexual Assault and Misconduct

Survey Flow and Logic

The survey has a core set of 54 questions that are asked of every respondent. Additional questions are administered if respondents report being victimized. Respondents who reported experiencing behaviors associated sexual harassment, stalking, and intimate partner violence (sections D, E, and F, respectively) completed approximately 10 follow-up questions for each type of misconduct. These follow-up questions asked for information across all reported incidents for each form of victimization. For example, if someone was a victim of intimate partner violence by two different partners, the follow-up questions ask for information across both partners.

There is more complicated logic for the items covering incidents involving physical force and the inability to consent or stop what was happening (G1-G5), coercion (G6, G7), and those occurring without active, ongoing voluntary agreement (G8, G9). Across these items, there are two types of follow-up questions. First, there are follow-ups to each affirmative response to questions G1 – G9 (Attachment 1). The purpose of these follow-ups is to count and date each of the incidents that occurred. This is done by following each affirmative response to an individual screen item (G1 – G9) with questions that ask for the number of times (Attachment 1: G[X]a²⁵) and the school year in which the incident occurred (Attachment 1: G[X]b – G[X]c). To finalize the count, there are additional follow-up questions that ask if the incident is part of another incident that was already reported. If it had already been reported, the respondent is asked to indicate which other incident was involved (Attachment 1: G[X]d, G[X]e). Respondents that experienced four or more incidents that occurred during the current school year reported whether or not any of the other incidents also occurred since the beginning of the current school year (Attachment 1: G2f).

After G1 – G9 were completed, a second type of follow up was used to collect details on the victimization that was reported (DIF; Attachment 2). If a respondent responded affirmatively to at least one item in G1 – G9, a series of approximately 18 items were administered to collect the details (Attachment 2; Items GA). These follow-ups are administered separately for up to four incidents reported in items G1 – G9. Respondents completed the first DIF in reference to the incident that impacted or affected them the most,

²⁵“X” goes from 1 to 9. For example, G[1]a is the follow-up to question G1; G[2]a is the follow-up to question G2, etc.

followed by additional DIFs for up to three other incidents that also impacted or affected them. For example, if a respondent reports a penetration by force (G1) and sexual touching by force (G3), these items were administered twice, once for each type.

SECTION A - BACKGROUND

First, we'd like to ask you a few questions about your background.

A1. How old are you?

[DROP DOWN LIST]

Under 18

18-39, by single year

40+

[IF AGE =Under 18]

"We are sorry but the survey can only be completed by students who are at least 18 years old. Thank you for your interest in our study. We appreciate your time."

[EXIT SURVEY]

A2. Which of the following best describes your current student affiliation with [University]?

Undergraduate [CONTINUE]

Graduate [GO TO A4]

Professional [GO TO A4]

[IF BLANK THEN GO TO A5]

A3. What is your class year in school? Answer on the basis of the number of credits you have earned.

1st year [GO TO A5]

2nd year [GO TO A5]

3rd year [GO TO A5]

4th year or higher [GO TO A5]

[IF BLANK THEN GO TO A5]

A4. What year are you in your program? Answer on the basis of the number of years enrolled in the graduate or professional academic program.

1st year

2nd year

3rd year

4th year

5th year

6th year or higher

A5. In which school at [University] are you enrolled? If you are enrolled in more than one choose the school that you consider your primary affiliation (e.g. most credits, college of main advisor).

Harvard Business School (HBS)

Harvard College (including the School of Engineering and Applied Sciences)

Harvard Divinity School (HDS)

Harvard Extension School

Harvard Graduate School of Arts and Sciences (GSAS) (including the School of Engineering and Applied Sciences)

Harvard Graduate School of Design (GSD)

Harvard Graduate School of Education (HGSE)

Harvard Law School (HLS)

Harvard Medical School (HMS)

Harvard School of Dental Medicine (HSDM)

Harvard T.H. Chan School of Public Health (HCSPH)

John F. Kennedy School of Government (HKS)

A6. In what year did you first enroll as a student at [University]?

[DROP DOWN LIST]

Prior to 2014

2014 – 2019 by single year

A6a. [IF A2 = Graduate OR Professional] Did you first enroll as an undergraduate student?

Yes [GO TO A6b]

No [SKIP TO A7]

A6b. What year did you enroll as a graduate or professional student?

[DROP DOWN LIST]

Prior to 2014

2014 – 2019 by single year

A7. Are you in a program in which you take all of your courses online?

Yes

No

A8. Are you Hispanic or Latino?

- Yes
 - No
-

A9. Select one or more of the following races that best describes you: (Mark all that apply)

- American Indian or Alaska Native [GO TO A10]
 - Asian [GO TO A9A]
 - Black or African American [GO TO A10]
 - Native Hawaiian or Other Pacific Islander [GO TO A10]
 - White [GO TO A10]
 - Other [GO TO A10]
 - [IF BLANK GO TO A10]
-

A9a. Please select one or more of the following that best represents your background:

- Asian Indian
 - Chinese
 - Filipino
 - Japanese
 - Korean
 - Vietnamese
 - Other Asian
-

A10. Are you a US citizen or permanent resident?

- Yes
 - No
-

A11.²⁶ Which best describes your gender identity?

- Woman
 - Man
 - Trans woman (male-to-female)
 - Trans man (female-to-male)
 - Nonbinary or genderqueer
 - Questioning
 - Not listed. I describe myself as (specify)
 - Decline to state
-

²⁶Modified from Freyd, J.J., Rosenthal, M., & Smith, C.P. (2014). The UO Sexual Violence and Institutional Behavior Campus Survey. Retrieved from <https://dynamic.uoregon.edu/jjf/campus/UO2014campussurveycontent.pdf>

A11a_HAR.*

[ALL RESPONDENTS]

Regardless of your answer to the last question, please select any of the following that reflect your gender identity. (Mark all that apply)

Woman

Man

Cisgender

Transgender

Nonbinary or genderqueer

Questioning

Decline to state

A12.²⁷ Do you consider yourself to be (Mark all that apply)

- Heterosexual or straight
 - Gay or lesbian
 - Bisexual
 - Asexual
 - Queer
 - Questioning
 - Not listed. I consider myself (specify)
 - Decline to state
-

A13. Since you have been a student at [University], have you been in any of these partnered relationships? (Mark all that apply):

- Marriage or civil union
 - Domestic partnership or cohabitation
 - Steady or serious relationship
 - Other ongoing relationship involving physical or sexual contact
 - None of the above
-

A14. Are you currently ...

- Never married
 - Not married but living with a partner
 - Married
 - Divorced or separated
 - Other
-

A15a. Do you identify as a student with any of the following? (Mark all that apply)

- Learning disability
 - ADHD
 - Autism Spectrum Disorder
 - Mobility-related disability (e.g., spinal cord injury, muscular dystrophy, etc.)
 - Sensory disability (e.g., hard of hearing, low vision, etc.)
 - Chronic mental health condition (e.g., depression, PTSD, anxiety disorder, etc.)
 - Chronic medical condition (e.g., cystic fibrosis, diabetes, chronic pain, etc.)
 - Other disability or chronic condition
 - None of the above **[SKIP TO A16]**
-

***All custom items are identified in orange and labeled XX_HAR**

A15. [IF A15a=ANY] Have you registered with [University]’s office of student accessibility and disability services?

Yes

No

A16. Since you have been a student at [University], have you been a member of or participated in any of the following? (Mark all that apply):

Academic group or committee

Advocacy association (e.g., Divest Harvard, Prison Education Network, Graduate Students Union)

Campus non-varsity sports (e.g., clubs, teams, intramurals)

Campus varsity sports

Cultural/ethnic/affinity/identity groups (e.g., Black Students Association, Chinese Students Association, LGBTQ Students Association)

Sororities, fraternities, final clubs (recognized or unrecognized)

Student governing organization (e.g., HoCo, student government, residence hall association)

Campus media or publications (e.g., student journals, Crimson, The Harbus, Harvard Law Review, other campus publication, radio station)

Campus creative and performing arts groups (e.g., theatre, music, dance, cultural show)

Student political group or club

Peer education or counseling group (e.g., Drug & Alcohol Peer Advisors, Peer Advising Fellows, Response, Room 13)

Campus religious organization

Resident advisors (e.g., Tutors, Proctors, RAs)

Campus public service organization (e.g., Phillips Brooks House Association, Special Olympics Volunteers Club, Harvard Habitat for Humanity)

Other campus-based club or organization

None of the above

A17. Which of the following best describes your living situation?

Harvard House, dorm, or residence hall (including Dudley Coop and swing housing)

Harvard-owned graduate housing (on- or off-campus)

Off-campus with peers (roommates or other students)

Off-campus on your own or with your family (parents, partners, children)

Other

SECTION BB – GENERAL PERCEPTIONS OF CAMPUS

This section was designed to help contextualize respondents' campus experience and allow for comparisons within and across participating institutions. They are based on the collective efficacy framework (Sampson, Raudenbush, & Earls, 1997)²⁸ by focusing on social cohesion and trust. The items were adapted from the Rutgers Campus Climate Survey (McMahon, 2018),²⁹ the We Speak: Attitudes on Sexual Misconduct at Princeton survey (Princeton University, 2017),³⁰ and the Campus Climate Validation Study (Krebs, et al., 2016).³¹

The next few questions are about how you experience the campus community at [University].

BB1. How connected do you feel to the campus community at [University] as a whole?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

BB2. How comfortable are you seeking advice from faculty or staff at [University], even about something personal?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

²⁸Modified from Sampson, R. J., Raudenbush, S. W., & Earls, F. (1997). Neighborhoods and violent crime: A multilevel study of collective efficacy. *Science*, 277, 918-924.

²⁹Modified from McMahon, S. (2018). #iSPEAK: Rutgers Campus Climate Survey. Retrieved from <https://socialwork.rutgers.edu/file/4402/download>

³⁰Modified from Princeton University (2017). We Speak: Attitudes on Sexual Misconduct at Princeton. Retrieved from <https://sexualmisconduct.princeton.edu/sites/sexualmisconduct/files/wespeak2017.pdf>

³¹Modified from Krebs, C, Lindquist, C., Berzofsky, M., Shook-Sa, B., Peterson, K., Planty, M., Langton, L., & Stroop, J. (2016). *Campus climate survey validation study final technical report*. Bureau of Justice Statistics, US Department of Justice, R&DP-2015:04, NCJ 249545.

BB3. How concerned are students at [University] about each other's well-being?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

BB4. How concerned are faculty or staff at [University] about your well-being?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

BB5. How concerned are University Officials at [University] about your well-being?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

SECTION B – PERCEPTIONS OF RISK³²

“Sexual assault” and “sexual misconduct” refer to a range of behaviors that are nonconsensual or unwanted. These behaviors could include remarks about physical appearance or persistent sexual advances. They also could include threats of force to get someone to engage in sexual behavior such as nonconsensual or unwanted touching, sexual penetration, oral sex, anal sex or attempts to engage in these behaviors. These behaviors could be initiated by someone known or unknown including someone you are in or have been in a relationship with.

These next questions ask about your perceptions related to the risks of experiencing sexual assault or sexual misconduct.

B1. How problematic is sexual assault or other sexual misconduct at [University]?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

B2. How likely do you think it is that you will experience sexual assault or sexual misconduct in the future while enrolled at [University]?

- Not at all
 - A little
 - Somewhat
 - Very
 - Extremely
-

³²Modified from Fisher, B. S., & Sloan III, J. J. (2003). Unraveling the fear of victimization among college women: Is the “shadow of sexual assault hypothesis” supported? *Justice Quarterly*, 20(3), 633-659.

SECTION C – KNOWLEDGE OF RESOURCES

The next questions ask about the services and resources offered by the university for those affected by sexual assault and other sexual misconduct.

C1.³³ Are you aware of the services and resources provided by the following? (Mark all that apply)

Harvard Counseling and Mental Health Services (CAMHS)

Harvard University Health Services (HUHS)

Harvard University Police Department (HUPD)

Office for Dispute Resolution (ODR)

Office of Sexual Assault Prevention & Response (OSAPR)

Title IX Coordinators

University Chaplains

Harvard College Office of BGLTQ Student Life

Undergraduate Peer Counseling Group (e.g., CARE, Contact, Response, Room 13, SHARC)

None of the Above

C2a. How knowledgeable are you about how sexual assault and other sexual misconduct are defined at [University]?

Not at all

A little

Somewhat

Very

Extremely

³³Modified from McMahon, S. (2018). #iSPEAK: Rutgers Campus Climate Survey. Retrieved from <https://socialwork.rutgers.edu/file/4402/download>

C2b.³⁴ How knowledgeable are you about where to get help at [University] if you or a friend experienced sexual assault or other sexual misconduct?

Not at all

A little

Somewhat

Very

Extremely

C2c.³⁵ How knowledgeable are you about where to make a report of sexual assault or other sexual misconduct at [University]?

Not at all

A little

Somewhat

Very

Extremely

C2d. How knowledgeable are you about what happens when a student reports an incident of sexual assault or other sexual misconduct at [University]?

Not at all

A little

Somewhat

Very

Extremely

SECTION D - SEXUAL HARASSMENT^{36 37}

These next questions ask about behaviors you may have experienced while a student at [University].

D1. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] made sexual remarks or told sexual jokes or sexual stories that were insulting or offensive to you?

Yes
No

D2. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] made inappropriate or offensive comments about your or someone else's body, appearance or sexual activities?

Yes
No

D3. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] said crude or gross sexual things to you or tried to get you to talk about sexual matters when you didn't want to?

Yes
No

D4. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] used social or on-line media to do any of the following that you didn't want:

- send offensive sexual remarks, jokes, stories, pictures or videos to you
- communicate offensive sexual remarks, jokes, stories, pictures or videos about you

Yes
No

³⁶Modified from Leskinen, E.A., & Cortina, L.M. (2014) Dimensions of disrespect: Mapping and measuring gender harassment in organizations. *Psychology of Women Quarterly*, 38(1), 107-123.

³⁷Modified from Freyd, J.J., Rosenthal, M., & Smith, C.P. (2014). The UO Sexual Violence and Institutional Behavior Campus Survey. Retrieved from <https://dynamic.uoregon.edu/jjf/campus/UO2014campussurveycontent.pdf>

D5. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] continued to ask you to go out, get dinner, have drinks or have sex even though you said, “No”?

Yes

No

BOX D1

IF YES TO ANY QUESTION D1 – D5, CONTINUE

ELSE GO TO E1

You said that the following happened to you since you’ve been a student at [University]:

- **[IF D1 = YES]** Someone made sexual remarks or told sexual jokes or stories that were insulting or offensive
- **[IF D2 = YES]** Someone made inappropriate offensive comments about your or someone else’s body, appearance or sexual activities
- **[IF D3 = YES]** Someone said crude or gross sexual things to you or made unwelcomed attempts to get you to talk about sexual matters
- **[IF D4 = YES]** Someone used social or any other form of on-line media to communicate offensive sexual remarks, jokes, stories, pictures or videos to you or about you
- **[IF D5 = YES]** Someone continued to ask you to go out, get dinner, have drinks or have sex even though you said, “No”

D5a. Did (this/any of these) experience(s) affect you in any of the following ways? (Mark all that apply)

Interfered with your academic or professional performance

Limited your ability to participate in an academic program

Created an intimidating, hostile or offensive social, academic or work environment

None of the above

D6. How many different people behaved this way?

1 person **[GO TO D6a]**

2 persons **[SKIP TO D6b]**

3 or more persons **[SKIP TO D6b]**

[IF BLANK SKIP TO D6b]

D6a. [IF 1 PERSON] Was the person that did this to you...

Man

Woman

Other gender identity

Don’t Know

[FOR ANY RESPONSE OR IF BLANK SKIP TO D7]

D6b. [IF >1 PERSON] Were any of the people that did this to you...

Man	Yes	No
Woman	Yes	No
Other gender identity	Yes	No
Don't Know	Yes	No

D7. How (was the person/were the persons) who behaved (this way/these ways) associated with [University]? (Mark all that apply)

- Student
 - Student teaching assistant
 - Faculty or instructor
 - Research staff
 - Other staff or administrator
 - Coach or trainer
 - Alumni
 - Other person associated with [University] (e.g., internship, study abroad)
 - The person was not associated with [University]
 - Unsure about association with [University]
-

D8. At the time of (this event/these events), what (was the person's/ were these persons') relationship to you? (Mark all that apply)

- Someone I was involved or intimate with at the time
 - Someone I previously had been involved or intimate with
 - Teacher
 - Advisor
 - Someone I was teaching or advising
 - Live-in residential staff
 - Coach or trainer
 - Boss or supervisor
 - Co-worker
 - Friend
 - Classmate
 - Someone I know or recognize, but was not a friend
 - Did not know or recognize this person
-

D9. Since the beginning of the Fall 2018 term, how many times has someone behaved this way?

[DROP DOWN LIST]

- 0-19
- 20+

D9a_HAR.

[NOTE FOR PROGRAMMER: RETAIN VISUAL SEPARATION BETWEEN GROUPINGS]

In what setting(s) did (this behavior/these behaviors occur)? (Mark all that apply)

On-campus housing

Off-campus housing

On-campus social event

Final club — single-gender

Final club — co-ed or former final club

Other off-campus social event

Athletic practice or training setting/facility

Performance or rehearsal space

Extracurricular or co-curricular setting

Lab or clinical setting

Affiliate hospital

Workplace

Internship, field site, or clerkship

Departmental meeting

Advising meeting or office hours

Academic or professional conference

Classroom setting

Recruiting event

Informal academic or professional gathering

Study abroad

Restaurant, bar, or club (Non-campus related)

Outdoor location on or around campus

Other [Open ended text-box]

D10. Since you have been a student at [University], have you contacted any of the following about this experience? (Mark all that apply)

Harvard Counseling and Mental Health Services (CAMHS)

Harvard University Health Services (HUHS)

Harvard University Police Department (HUPD)

Office for Dispute Resolution (ODR)

Office of Sexual Assault Prevention & Response (OSAPR)

Title IX Coordinators

University Chaplains

Harvard College Office of BGLTQ Student Life

Undergraduate Peer Counseling Group (e.g., CARE, Contact, Response, Room 13, SHARC)

Other program or resource

None of the above **[GO TO D13]**

[IF NO PROGRAM MARKED GO TO D13]

BOX D2

IF D10= NONE OF THE ABOVE OR NO PROGRAM MARKED THEN GO TO D13

ELSE ADMINISTER ITEMS D11 FOR EACH PROGRAM MARKED IN D10 (UP TO 10)

D11 [A-J]. When did you most recently contact [Program] about (this experience/these experiences)?

Fall of 2018 – present

Fall of 2017 – Summer of 2018

Fall of 2016 – Summer of 2017

Prior to Fall of 2016

BOX D3

IF MORE PROGRAMS MARKED IN D11 THEN RETURN TO BOX D2

ELSE SKIP TO D14

D13. [IF NO PROGRAMS CONTACTED] Why did you decide not to contact any of these programs or resources? (Mark all that apply)

- I did not know where to go or who to tell
- I felt embarrassed, ashamed or that it would be too emotionally difficult
- I did not think anyone would believe me
- I did not think it was serious enough to contact any of these programs or resources
- I did not want the person to get into trouble
- I feared negative academic, social or professional consequences
- I feared it would not be kept confidential
- I could handle it myself
- I feared retaliation
- I didn't think these resources would give me the help I needed
- Incident occurred while school was not in session
- Other

BOX D4

IF D13= 'NOT SERIOUS ENOUGH' OR 'OTHER' THEN CONTINUE
ELSE SKIP TO D14

D13a. You said you did not contact any of these programs or resources (because it was not serious enough/for an 'other' reason/because it was not serious enough and for an 'other' reason). Please review the list below and mark any of the reasons that may better describe why you didn't contact any of these programs or resources (Mark all that apply).

- I was not injured or hurt
 - The reaction by others suggested that it wasn't serious enough to contact any of these programs or services
 - I contacted other programs or services that I felt were appropriate
 - I had trouble reaching the program or service
 - I was too busy
 - The event happened in a context that began consensually
 - Because of the person's gender, I thought it would be minimized or misunderstood
 - I might be counter-accused
 - Alcohol and/or other drugs were present
 - Events like this seem common
 - My body showed involuntary arousal
 - Other: [Text Box]
-

D14. Which of the following persons, if any, did you (also) tell about this? (Mark all that apply)

Friend

Family member

Faculty member or instructor

Resident advisor (RA), or other live-in residential staff

Other administrative staff

Spiritual or religious advisor, leader, or clergy

Therapist or counselor

Sexual or romantic partner

Program or resource outside the University (e.g., a hotline)

Physician

Someone else

I didn't tell anyone (else)

The next questions ask about instances where someone behaved in a way that made you afraid for your personal safety or caused you substantial emotional distress.

E1. Since you have been a student at [University], has someone made unwanted phone calls, sent emails, voice, text or instant messages to you, or posted unwanted messages, pictures or videos on social media to or about you or elsewhere online?

Yes

No [GO TO E2]

[IF BLANK GO TO E2]

E1a. Did the same person do this to you more than once since you have been a student at [University]?

Yes

No

Don't know

E2. Since you have been a student at [University], has someone showed up somewhere uninvited or waited for you when you did not want that person to be there?

Yes

No [GO TO E3]

[IF BLANK THEN GO TO E3]

E2a. Did the same person do this to you more than once since you have been a student at [University]?

Yes

No

Don't Know

SECTION F – INTIMATE PARTNER VIOLENCE (IPV)⁴¹

BOX F0

IF A13 = YES (PRIOR RELATIONSHIP) GO TO F1

ELSE SKIP TO G1

Earlier in the survey, you indicated that you have been in a partnered relationship at least part of the time since you have been a student at [University]. Recall that a partnered relationship can be any of the following:

- Marriage or civil union
- Domestic partnership or cohabitation
- Steady or serious relationship
- Other ongoing relationship involving physical or sexual contact

People treat their partners in many different ways. The next section asks you questions about your relationship(s) with your partner(s).

F1. Since you have been a student at [University], has a partner controlled or tried to control you? Examples could be when someone:

- kept you from going to classes or pursuing your educational goals
- did not allow you to see or talk with friends or family
- made decisions for you such as, where you go or what you wear or eat
- threatened to “out” you to others

Yes

No

F2. Since you have been a student at [University], has a partner threatened to physically harm you, someone you love, or him/herself?

Yes

No

⁴¹Modified from Black, M.C., Basile, K.C., Breiding, M.J., Smith, S.G., Walters, M.L., Merrick, M.T. et al. (2011). The National Intimate Partner and Sexual Violence Survey (NISVS): 2010 Summary Report. Atlanta, GA: National Center for Injury Prevention and Control, Centers for Disease Control and Prevention.

F3. Since you have been a student at [University], has a partner used any kind of physical force against you or otherwise physically hurt or injured you? Examples could be when someone:

- bent your fingers or bit you
- choked, slapped, punched or kicked you
- hit you with something other than a fist
- attacked you with a weapon

Yes

No

BOX F1

IF F1=YES OR F2=YES OR F3=YES, THEN GO TO F4
ELSE SKIP TO G1

You said that the following happened to you since you've been a student at [University]:

- [IF F1 = YES] A partner controlled or tried to control you
 - [IF F2 = YES] A partner threatened to physically harm you or someone you love
 - [IF F3 = YES] A partner used physical force against you
-

F4. How many different partners treated you this way?

Other administrative staff

Spiritual or religious advisor, leader, or clergy

Therapist or counselor

Sexual or romantic partner

Program or resource outside the University (e.g., a hotline)

Physician

Someone else

I didn't tell anyone (else)

This next section asks about nonconsensual or unwanted sexual contact you may have experienced while attending [University].

The sexual behavior may have been performed on you or you may have been made to perform the sexual behaviors on another person. The person with whom you had the nonconsensual or unwanted contact could have been someone you know, such as someone you are currently or were in a relationship with, a co-worker, a professor, or a family member. Or it could be someone you do not know.

Please consider anyone who did this, whether or not the person was associated with (University).

The following questions separately ask about contact that occurred because of physical force, incapacitation due to alcohol and/or drugs, and other types of pressure.

The first few questions ask about incidents that involved force or threats of force against you. Force could include someone using their body weight to hold you down, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

G1. Since you have been attending [University], has someone used physical force or threats of physical force to do the following with you:

- **Sexual penetration.** When one person puts a penis, fingers, or object inside someone else's vagina or anus, or
- **Oral sex.** When someone's mouth or tongue makes contact with someone else's genitals

Yes [GO TO Attachment 1]

No

G2. Since you have been attending [University], has someone used physical force or threats of physical force in an unsuccessful attempt to do any of the following with you:

- **Sexual penetration. When one person puts a penis, finger, or object inside someone else's vagina or anus**
- **Oral sex. When someone's mouth or tongue makes contact with someone else's genitals**

Yes [\[GO TO Attachment 1\]](#)

No

G3. Since you have been attending [University], has someone used physical force or threats of physical force to do any of the following with you:

- **kissing**
- **touching someone's breast, chest, crotch, groin or buttocks**
- **grabbing, groping or rubbing against the other in a sexual way, even if the touching is over the other's clothes**

Yes [\[GO TO Attachment 1\]](#)

No

The next questions ask about incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol. Please include incidents even if you are not sure what happened.

G4. Since you have been attending [University], has any of the following happened to you while you were unable to consent or stop what was happening because you were passed out, asleep or incapacitated due to drugs or alcohol:

- **Sexual penetration. When one person puts a penis, finger, or object inside someone else's vagina or anus**
- **Oral sex. When someone's mouth or tongue makes contact with someone else's genitals**

Yes [\[GO TO Attachment 1\]](#)

No

G5. Since you have been attending [University], has any of the following happened to you while you were unable to consent or stop what was happening because you were passed out, asleep or incapacitated due to drugs or alcohol:

- kissing
- touching someone's breast, chest, crotch, groin, or buttocks
- grabbing, groping or rubbing against the other in a sexual way, even if the touching is over the other's clothes

Yes [\[GO TO Attachment 1\]](#)

No

The next questions ask about incidents when someone coerced you by threatening serious non-physical harm or promising rewards.

G6. Since you have been a student at [University], has someone had contact with you involving penetration or oral sex by threatening serious non-physical harm or promising rewards such that you felt you must comply? Examples include:

- Threatening to give you bad grades or cause trouble for you at work
- Promising good grades or a promotion at work
- Threatening to share damaging information about you with your family, friends or authority figures
- Threatening to post damaging information about you online

Yes [\[GO TO Attachment 1\]](#)

No

G7. Since you have been a student at [University], has someone had contact with you involving kissing or other sexual touching by threatening serious non-physical harm or promising rewards such that you felt you must comply? Examples include:

- Threatening to give you bad grades or cause trouble for you at work
- Promise good grades or a promotion at work
- Threatening to share damaging information about you with your family, friends or authority figures
- Threatening to post damaging information about you online

Yes [\[GO TO Attachment 1\]](#)

No

The next questions ask about incidents that occurred without your active, ongoing voluntary agreement.

G8.⁴⁴ Since you have been a student at [University], has someone had contact with you involving penetration or oral sex without your active, ongoing voluntary agreement?

Examples include someone:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

Yes [\[GO TO Attachment 1\]](#)

No

G9.⁴⁵ Since you have been a student at [University], has someone kissed or sexually touched you without your active, ongoing voluntary agreement? Examples include:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

Yes [\[GO TO Attachment 1\]](#)

No

BOX G1

IF ANY OF G1-G9 = YES THEN GO TO ATTACHMENT 2

ELSE GO TO BOX HH0

⁴⁴Incorporate active, ongoing voluntary agreement as a tactic from the AAU and COFHE schools voluntary agreement policies.

⁴⁵bid

SECTION HH – OPINIONS OF PROGRAM SERVICES

BOX HH0

IF RESPONDENT MARKED ANY PROGRAM IN ITEMS (D10, E8, F8, or GA16) THEN CONTINUE
ELSE SKIP TO BOX H0

ADMINISTER QUESTIONS HH1& HH2 FOR EACH PROGRAM A-J MARKED IN (D10, E8, F8, GA16), UP TO 10 TIMES

QUESTIONS ARE ASKED FOR EACH PROGRAM MARKED, REGARDLESS OF INCIDENT TYPE OR NUMBER OF CONTACTS. FOR EXAMPLE:

--- If someone marks 'Program A' in D11 and 'Program A' in GA16, they will receive questions HH1& HH2 only once (for 'Program A')

--- If someone marks 'Program A' and 'Program C' in D10, and 'Program C' in F8, then they will receive questions HH1& HH2 twice: once for 'Program A' and once for 'Program C'.

Earlier you said that you have contacted the following as a result of an incident:

[LIST programs contacted]

The following ask you about your experience with (this/each of these) program(s)

You said that you contacted [PROGRAM] ...

HH1. How useful was [Program] in helping you?

- Not at all
- A little
- Somewhat
- Very
- Extremely

HH2. At any time did you feel pressure from [PROGRAM] on whether or not to report or file a complaint?

- No, I did not feel pressure to proceed with reporting or filing a complaint
- Yes, I felt pressure to proceed with reporting or filing a complaint
- Yes, I felt pressure NOT to report or file a complaint

BOX HH1

IF MORE PROGRAMS SELECTED IN (D10, E8, F8, or GA16) THEN RETURN TO BOX HH0
ELSE CONTINUE TO BOX H1

SECTION H – SEXUAL MISCONDUCT PREVENTION TRAINING⁴⁶

BOX H0

IF A6=2018 or 2019 THEN GO TO H1
IF A6 < 2018 THEN GO TO H2

H1. As an incoming student at [University], did you complete any training modules or information sessions about sexual assault or other sexual misconduct?

Yes [GO TO H1a]

No [GO TO I1]

[IF BLANK THEN SKIP TO I1]

H1a. [IF H1 = YES] What topics did these training modules or information sessions include? (Mark all that apply)

How sexual assault or other sexual misconduct is defined on campus

How to prevent sexual assault or other sexual misconduct

Additional training programs on how to prevent sexual assault or other sexual misconduct

Where to seek help should you or someone else experience sexual assault or other sexual misconduct

[IF ANY RESPONSE OR IF BLANK THEN SKIP TO I1]

H2. Since arriving at [University], have you completed any training modules or information sessions about sexual assault or other sexual misconduct?

Yes [GO TO H2a]

No [GO TO I1]

[IF BLANK THEN CONTINUE TO I1]

H2a. [IF H2 = YES] What topics did these training modules or information sessions include? (Mark all that apply)

How sexual assault or other sexual misconduct is defined on campus

How to prevent sexual assault or other sexual misconduct

Additional training programs on how to prevent sexual assault or other sexual misconduct

Where to seek help should you or someone else experience sexual assault or other sexual misconduct

[IF ANY RESPONSE OR IF BLANK THEN SKIP TO I1]

⁴⁶Modified from White House Task Force to Protect Students From Sexual Assault. (2014). *Not Alone: The First Report of the White House Task Force to Protect Students From Sexual Assault*. Retrieved from <https://www.justice.gov/archives/ovw/page/file/905942/download>

SECTION I – PERCEPTIONS OF RESPONSES TO REPORTING^{47 48}

The following are statements about what might happen if someone were to report a sexual assault or other sexual misconduct to an official at [University]. Please use the scale provided to indicate how likely you think each scenario is.

- 11. If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would take the report seriously?**

Not at all
A little
Somewhat
Very
Extremely

- 12. If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would conduct a fair investigation?**

Not at all
A little
Somewhat
Very
Extremely

SECTION J – BYSTANDER BEHAVIOR^{49 50}

The next questions are about situations you may have seen since you have been a student at [University].

J1. Since you have been a student at [University], have you noticed someone at [University] making inappropriate sexual comments about someone else's appearance, sharing unwanted sexual images, or otherwise acting in a sexual way that you believed was making others feel uncomfortable or offended?

Yes [CONTINUE]

No [GO TO J2]

[IF BLANK THEN GO TO J2]

J1a. Thinking about the last time this happened, what did you do? (Mark all that apply)

Directly intervened or interrupted the situation in the moment

Checked in with the person who seemed impacted by the behavior

Confronted or expressed concern to the person engaging in the behavior

Sought help from either person's friends

Sought help from someone else

Expressed concern to school administrators or another person in a position of authority

Did nothing because the person impacted appeared to be handling the situation

Did nothing because I wasn't sure what to do

Did nothing for another reason

Other: [Text Box]

J2. Since you have been a student at [University], have you witnessed a pattern of ongoing sexual comments or behaviors that made you concerned that a fellow student at [University] was experiencing sexual harassment?

Yes [CONTINUE]

No [GO TO J3]

[IF BLANK THEN GO TO J3]

⁴⁹Modified from Banyard, V. L., Moynihan, M. M., Cares, A. C., & Warner, R. (2014). How do we know if it works? Measuring outcomes in bystander-focused abuse prevention on campuses. *Psychology of Violence, 4*(1), 101-115.

⁵⁰Modified from McMahon, S. (2018). #iSPEAK: Rutgers Campus Climate Survey. Retrieved from <https://socialwork.rutgers.edu/file/4402/download>

J2a. Thinking about the last time this happened, what did you do? (Mark all that apply)

- Directly intervened or interrupted the situation in the moment
 - Checked in with the person who seemed impacted by the behavior
 - Confronted or expressed concern to the person engaging in the behavior
 - Sought help from either person's friends
 - Sought help from someone else
 - Expressed concern to school administrators or another person in a position of authority
 - Did nothing because the person impacted appeared to be handling the situation
 - Did nothing because I wasn't sure what to do
 - Did nothing for another reason
 - Other: [Text Box]
-

J3. Since you have been a student at [University], have you witnessed someone at [University] behaving in a controlling or abusive way towards a dating or sexual partner?

- Yes [CONTINUE]
 - No [GO TO J4]
 - [IF BLANK GO TO J4]
-

J3a. Thinking about the last time this happened, what did you do? (Mark all that apply)

- Directly intervened or interrupted the situation in the moment
 - Checked in with the person who seemed impacted by the behavior
 - Confronted or expressed concern to the person engaging in the behavior
 - Sought help from either person's friends
 - Sought help from someone else
 - Expressed concern to school administrators or another person in a position of authority
 - Did nothing because the person impacted appeared to be handling the situation
 - Did nothing because I wasn't sure what to do

No

ATTACHMENT 2 – SECTION GA: SUMMARY DETAILED INCIDENT FORM^{51 52}

BOX GA0

IF ALL ITEMS G1 – G9 = 'NO' OR BLANK THEN SKIP TO BOX H0
ELSE CONTINUE TO BOX GA1

BOX GA1

Section GA is administered up to 4 TIMES based on incidents reported in items G1 – G9
Respondents who reported at least 1 incident in G1 – G9 will be asked to complete 1 DIF.
Respondents who reported more than 1 incident will be given the option to complete up to 4 DIFs (see the end of section GA for this request).

A DIF will be in reference to 1 single incident

The incident referenced by a DIF will be selected by the respondent, based on how much the experience impacted or affected the respondent.

- The FIRST DIF will reference the incident which IMPACTED OR AFFECTED the respondent THE MOST
- The SECOND DIF will reference the incident which IMPACTED OR AFFECTED the respondent THE SECOND MOST
- ...up to 4 incidents

BOX GA1.5

Count number of eligible incidents for each item in section G:

DO FOR X = 1 – 9 AND Y = 1 – 4

if G[X]=YES then do

G[X]count = G[X] a

if G[X]a=BLANK then G[X]count=1

if G[X]c_[Y] = 5 OR G[X]e_[Y] = (1 to 8) then G[X]count - 1

Dynamic text

if sum (G1count-G9count) =1 then:

“...what happened during the incident you reported...”

if sum (G1count-G9count) >1 AND first incident then:

“...what happened during one of the incidents you reported...”

if sum if sum (G1count-G9count) >1 AND 2nd-4th incident then:

“...what happened during another one of the incidents you reported...”

⁵¹Modified from Black, M.C., Basile, K.C., Breiding, M.J., Smith, S.G., Walters, M.L., Merrick, M.T. et al. (2011). The National Intimate Partner and Sexual Violence Survey (NISVS): 2010 Summary Report. Atlanta, GA: National Center for Injury Prevention and Control, Centers for Disease Control and Prevention.

⁵²Modified from Bureau of Justice Statistics (2017). National Crime Victimization Survey, 2016: Technical documentation. Retrieved from <https://www.bjs.gov/content/pub/pdf/ncvstd16.pdf>

The following questions ask about what happened during (the/(another) one of the) incident(s) you reported earlier. Sometimes it is difficult to report on these details, but the information you provide will help us understand the context and consequences of the incident.

Please remember that you can skip any question if you do not want to answer.

[IF FIRST INCIDENT]: You said that the following happened to you since you have been a student at [University]:

- [IF G1count > 0] Penetration or oral sex involving physical force or threats of physical force ([G1count] incidents)
- [IF G2count > 0] Attempted but not successful penetration or oral sex involving physical force or threats of physical force ([G2count] incidents)
- [IF G3count > 0] Sexual touching involving physical force or threats of physical force ([G3count] incidents)
- [IF G4count > 0] Penetration or oral sex when you were unable to consent or unable to stop what was happening ([G4count] incidents)
- [IF G5count > 0] Sexual touching when you were unable to consent or unable to stop what was happening ([G5count] incidents)
- [IF G6count > 0] Penetration or oral sex when you were coerced by threats of serious non-physical harm or promised rewards ([G6count] incidents)
- [IF G7count > 0] Sexual touching when you were coerced by threats of serious non-physical harm or promised rewards ([G7count] incidents)
- [IF G8count > 0] Penetration or oral sex without your active ongoing consent ([G8count] incidents)
- [IF G9count > 0] Sexual touching without your active ongoing consent ([G9count] incidents)

[IF ONE INCIDENT]: Please answer the following questions about what happened during this experience and how it impacted or affected you.

[IF FIRST INCIDENT OF 2 OR MORE]: The following questions ask you about what happened during one of these experiences. While all such experiences are of great concern, please answer the following questions about the experience that has *impacted or affected you the most*.

[IF SECOND, THIRD OR FOURTH INCIDENT] You reported that [XX] other incidents involving sexual contact occurred. The following questions ask you about what happened during the incident that had the NEXT greatest impact on you. Please remember that you can skip any question if you do not want to answer.

GA1. How many people did this to you (during this incident)?

- 1 person [GO TO GA2a]
 - 2 persons [SKIP TO GA2b]
 - 3 or more persons [SKIP TO GA2b]
 - [IF BLANK SKIP TO GA2b]
-

GA2a. [IF 1 PERSON] Was the person that did this to you ...

- Man
 - Woman
 - Other gender identity
 - Don't know
 - [FOR ANY RESPONSE OR IF BLANK SKIP TO GA2c]
-

GA2b. [IF >1 PERSON] Were any of the people that did this to you...

Man	Yes	No
Woman	Yes	No
Other gender identity	Yes	No
Don't Know	Yes	No

**GA2c. What type of nonconsensual or unwanted behavior occurred during this incident?
(Mark all that apply)**

- Penis, finger(s) or object(s) was inside someone's vagina or anus
 - Mouth or tongue made contact with another's genitals
 - Kissed
 - Touched breast, chest, crotch, groin or buttocks
 - Grabbed, groped or rubbed in a sexual way
 - Other
-

GA2d. How did the person do this? (Mark all that apply)

- The person(s) used physical force or threats physical of force
 - The person(s) did this when I was unable to consent or stop what was happening because I was passed out, asleep, or incapacitated due to drugs or alcohol
 - The person(s) threatened serious non-physical harm or promised rewards
 - The person(s) did this without my active, ongoing, voluntary agreement
-

**GA3. How (is the person/ are the persons) who did this to you associated with [University]?
(Mark all that apply)**

Student

Student teaching assistant

Faculty or instructor

Research staff

Other staff or administrator

Coach or trainer

Alumni

Other person associated with [University](e.g., internship, study abroad)

The person was not associated with [University]

Unsure about association with [University]

GA4. At the time of this event, what (was the person's /were these persons') relationship to you? (Mark all that apply)

Someone I was involved or intimate with at the time

Someone I previously had been involved or intimate with

Teacher

Advisor

Someone I was teaching or advising

Live-in residential staff

Coach or trainer

Boss or supervisor

Co-worker

Friend

Classmate

Someone I know or recognize, but was not a friend

Did not know or recognize this person

GA16a. When did you most recently contact [Program] about this experience?

Fall of 2018 – present

Fall of 2017 – Summer of 2018

Fall of 2016 – Summer of 2017

Prior to Fall 2016

BOX GA5

IF MORE PROGRAMS MARKED THEN RETURN TO BOX GA4

ELSE SKIP TO GA18

GA17. Why did you decide not to contact any of these programs or resources? (Mark all that apply)

I did not know where to go or who to tell

I felt embarrassed, ashamed or that it would be too emotionally difficult

I did not think anyone would believe me

I did not think it was serious enough to contact any of these programs or resources

I did not want the person to get into trouble

I feared negative academic, social or professional consequences

I feared it would not be kept confidential

I could handle it myself

I feared retaliation

I didn't think these resources would give me the help I needed

Incident occurred while school was not in session

Other

BOX GA6

IF GA17= 'NOT SERIOUS ENOUGH' OR 'OTHER' THEN CONTINUE

ELSE IF MORE THAN ONE RESPONSE MARKED THEN SKIP TO GA17b

ELSE SKIP TO GA18

GA17a. You said you did not contact any of these programs or resources (because it was not serious enough/for an ‘other’ reason/because it was not serious enough and for an ‘other’ reason). Please review the list below and mark any of the reasons that may better describe why you didn’t contact any of these programs or resources (Mark all that apply).

I was not injured or hurt

The reaction by others suggested that it wasn’t serious enough to contact any of these programs or services

I contacted other programs or services that I felt were appropriate

I had trouble reaching the program or service

I was too busy

The event happened in a context that began consensually

Because of the person’s gender, I thought it would be minimized or misunderstood

I might be counter-accused

Alcohol and/or other drugs were present

Events like this seem common

My body showed involuntary arousal

Other: [Text Box]

BOX GA7

IF MORE THAN ONE RESPONSE MARKED ACROSS GA17 AND GA17a THEN CONTINUE
ELSE SKIP TO GA18

GA17b. What was the most important reason why you did not contact these programs or resources at (University)?

[LIST OF ALL OPTIONS MARKED IN GA17 AND GA17a]

GA18. Which of the following persons, if any, did you (also) tell about this? (Mark all that apply)

Friend

Family member

Faculty member or instructor

Resident advisor (RA), or other live-in residential staff

Other administrative staff

Spiritual or religious advisor, leader, or clergy

Therapist or counselor

Sexual or romantic partner

Program or resource outside the University (e.g., a hotline)

Physician

Someone else

I didn’t tell anyone (else)

BOX GA8

IF THIS IS THE FIRST, SECOND, OR THIRD DIF AND THERE IS ANOTHER INCIDENT THEN CONTINUE TO GA19

ELSE SKIP TO BOX HH0

GA19. You told us that you experienced [sum of (G1count-G9count) - # of completed DIFs] other incidents involving sexual contact since you have been a student at [University]. Would you like to tell us about the details involved in another incident?

Please keep in mind that this is completely voluntary. If you don't want to answer any more questions about specific incidents, select "no".

Yes, I would like to answer questions about another incident [RETURN TO BOX GA1]

No, continue with the rest of the survey [CONTINUE TO BOX HH0]

[IF BLANK THEN CONTINUE TO BOX HH0]

Appendix 2. Comparison of 2015 and 2019 Surveys

SECTION A - BACKGROUND

First, we'd like to ask you a few questions about your background.

A1. How old are you?

[DROP DOWN LIST]

Under 18

18-29~~39~~, by single year

~~30+~~40+

[IF AGE =Under 18]

"We are sorry but the survey can only be completed by students who are at least 18 years old. Thank you for your interest in our study. We appreciate your time."

[EXIT SURVEY]

A2. Which of the following best describes your current student affiliation with [University]?

Undergraduate [CONTINUE]

Graduate [GO TO A4]

Professional [GO TO A4]

[IF BLANK THEN GO TO A5]

A3. — [IF A2=UNDERGRAD]— _____ What is your class year in school? Answer on the basis of the number of credits you have earned.

~~Freshman~~1st year [GO TO A5]

~~Sophomore~~2nd year [GO TO A5]

~~Junior~~3rd year [GO TO A5]

~~Senior~~4th year or higher [GO TO A5]

[IF BLANK THEN GO TO A5]

~~A4.~~ ~~[IF A2=GRAD OR PROFESSIONAL]~~ **A4.** What year are you in your program?
Answer on the basis of the number of years enrolled in the graduate or professional academic program.

- 1st year
 - 2nd year
 - 3rd year
 - 4th year
 - 5th year
 - 6th year or higher
-

A5. In which school at [University] are you enrolled? If you are enrolled in more than one choose the school that you consider your primary affiliation (exe.g. most credits, college of main advisor).

[UNIVERSITY SPECIFIC LIST]

A6. In what year did you first enroll as a student at [University]?

[DROP DOWN LIST]

Prior to ~~1997~~2014

~~1997 – 2015~~2014 – 2019 by single year

A6a. [IF A2 = Graduate OR Professional] Did you first enroll as an undergraduate student?

Yes [GO TO A6b]

No [SKIP TO A7.] ~~Do]~~

A6b. What year did you enroll as a graduate or professional student?

[DROP DOWN LIST]

Prior to 2014

2014 – 2019 by single year

A7. Are you in a program in which you take all of your courses ~~on-line~~online?

Yes

No

A8. Are you Hispanic or Latino?

Yes

No

A9. Select one or more of the following races that best describes you: (Mark all that apply)

- American Indian or Alaska Native [\[GO TO A10\]](#)
- Asian [\[GO TO A9A\]](#)
- Black or African American [\[GO TO A10\]](#)
- Native Hawaiian or Other Pacific Islander [\[GO TO A10\]](#)
- White [\[GO TO A10\]](#)
- Other [\[GO TO A10\]](#)
- [\[IF BLANK GO TO A10\]](#)

A9a. Please select one or more of the following that best represents your background:

- Asian Indian
- Chinese
- Filipino
- Japanese
- Korean
- Vietnamese
- Other Asian

A10. Are you a US citizen or permanent resident?

- Yes
- No

A11. Which best describes your gender identity?

- Woman
 - Man
 - ~~Transgender~~ [Trans woman \(male-to-female\)](#)
 - ~~Transgender~~ [Trans man \(female-to-male\)](#)
 - ~~Genderqueer or gender non-conforming~~
 - [Nonbinary or genderqueer](#)
 - Questioning
 - Not listed
 - Decline to state
-

A12. Do you consider yourself to be: (Mark all that apply)

- Heterosexual or straight
- Gay or lesbian
- Bisexual
- Asexual
- Queer
- Questioning
- Not listed
- Decline to state

A13. Since you have been a student at [University], have you been in any of these partnered relationships? ~~Partnered relationships include:~~ (Mark all that apply):

- ~~casual relationship~~ Marriage or ~~hook-up~~
~~steady or serious relationship~~ marriage, civil union, domestic
 - Domestic partnership or cohabitation
 - Steady or serious relationship
 - Other ongoing relationship involving physical or sexual contact
 - None of the above
- Yes
No

A14. Are you currently ...

- Never married
- Not married but living with a partner
- Married
- Divorced or separated
- Other

A15

A15a. Do you have/identify as a student with any of the following? (Mark all that apply)

- Learning disability
- ADHD
- Autism Spectrum Disorder
- Mobility-related disability (e.g., spinal cord injury, muscular dystrophy, etc.)
- Sensory disability (e.g., hard of hearing, low vision, etc.)
- Chronic mental health condition (e.g., depression, PTSD, anxiety disorder, etc.)
- Chronic medical condition (e.g., cystic fibrosis, diabetes, chronic pain, etc.)
- Other disability or chronic condition
- None of the above [SKIP TO A16]

A15. [IF A15a=ANY] Have you registered with [University]’s Disability Services or Office on Disabilities?office of student accessibility and disability services?

Yes

No

A16. Since you have been a student at [University], have you been a member of or participated in any of the following? (Mark all that apply):

[UNIVERSITY SPECIFIC LIST]

None of the above

A17. Which of the following best describes your living situation?

[UNIVERSITY SPECIFIC LIST]

SECTION BB – GENERAL PERCEPTIONS OF CAMPUS

The next few questions are about how you experience the campus community at [University].

BB1. How connected do you feel to the campus community at [University] as a whole?

- Not at all
- A little
- Somewhat
- Very
- Extremely

BB2. How comfortable are you seeking advice from faculty or staff at [University], even about something personal?

- Not at all
- A little
- Somewhat
- Very
- Extremely

BB3. How concerned are students at [University] about each other's well-being?

- Not at all
- A little
- Somewhat
- Very
- Extremely

BB4. How concerned are faculty or staff at [University] about your well-being?

- Not at all
- A little
- Somewhat
- Very
- Extremely

BB5. How concerned are University Officials at [University] about your well-being?

- Not at all
- A little
- Somewhat
- Very
- Extremely

SECTION B – PERCEPTIONS OF RISK

“Sexual assault” and “sexual misconduct” refer to a range of behaviors that are nonconsensual or unwanted. These behaviors could include remarks about physical appearance or persistent sexual advances. They also could include threats of force to get someone to engage in sexual behavior such as nonconsensual or unwanted touching, sexual penetration, oral sex, anal sex or attempts to engage in these behaviors-. These behaviors could be initiated by someone known or unknown, including someone you are in or have been in a relationship with.

These next questions ask about your perceptions related to the risks of experiencing sexual assault or sexual misconduct.

B1. How problematic is sexual assault or other sexual misconduct at [University]?

Not at all;
A little;
Somewhat;
Very;
Extremely

B2. How likely do you think it is that you will experience sexual assault or sexual misconduct ~~on campus?~~ in the future while enrolled at [University]?

Not at all;
A little;
Somewhat;
Very;
Extremely

B3. ~~How likely do you think it is that you will experience sexual assault or sexual misconduct during off-campus university sponsored events?~~

~~Not at all, A little, Somewhat, Very, Extremely~~

SECTION C -- KNOWLEDGE OF RESOURCES

The next questions ask about the services and resources offered by the university for those affected by sexual assault and other sexual misconduct.

C1. Are you aware of the services and resources provided by the following? (Mark all that apply)

[UNIVERSITY SPECIFIC LIST]

None of the Above

How knowledgeable are you about each of the following:

C2a. How knowledgeable are you about how sexual assault and other sexual misconduct are defined at [University]?

Not at all,

A little,

Somewhat,

Very,

Extremely

C2b.- How knowledgeable are you about where to get help at [University] if you or a friend experienced sexual assault or other sexual misconduct?

Not at all,

A little,

Somewhat,

Very,

Extremely

C2c. How knowledgeable are you about where to make a report of sexual assault or other sexual misconduct at [University]?

Not at all,

A little,

Somewhat,

Very,

Extremely

C2d . How knowledgeable are you about what happens when a student reports an incident of sexual assault or other sexual misconduct at [University]?

Not at all,

A little,

Somewhat,

Very,

Extremely

SECTION D - SEXUAL HARASSMENT

These next questions ask about situations in which behaviors you may have experienced while a student at [University], ~~or someone employed by or otherwise associated with [University]~~ said or did something that.

- ~~• interfered with your academic or professional performance,~~
- ~~• limited your ability to participate in an academic program, or~~
- ~~• created an intimidating, hostile or offensive social, academic or work environment~~

D1. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] made sexual remarks or told sexual jokes or sexual stories that were insulting or offensive to you?

Yes

Never experienced No

~~These questions ask about situations in which someone said or did something that~~

- ~~• interfered with your academic or professional performance,~~
- ~~• limited your ability to participate in an academic program, or~~
- ~~• created an intimidating, hostile or offensive social, academic or work environment~~

D2. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] made inappropriate or offensive comments about your or someone else's body, appearance or sexual activities?

Yes,

Never experienced No

~~These questions ask about situations in which someone said or did something that~~

- ~~• interfered with your academic or professional performance,~~
- ~~• limited your ability to participate in an academic program, or~~
- ~~• created an intimidating, hostile or offensive social, academic or work environment~~

D3. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] said crude or gross sexual things to you or tried to get you to talk about sexual matters when you didn't want to?

Yes

Never experienced No

~~These questions ask about situations in which someone said or did something that~~

- ~~• interfered with your academic or professional performance,~~
- ~~• limited your ability to participate in an academic program, or~~
- ~~• created an intimidating, hostile or offensive social, academic or work environment~~

D4. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] ~~emailed, texted, tweeted, phoned, used social or instant messaged~~ offensive sexual remarks, jokes, stories, pictures or videos on-line media to you do any of the following that you didn't want?:

- send offensive sexual remarks, jokes, stories, pictures or videos to you
- communicate offensive sexual remarks, jokes, stories, pictures or videos about you

Yes

Never experienced No

~~These questions ask about situations where someone said or did something that~~

- ~~• interfered with your academic or professional performance,~~
- ~~• limited your ability to participate in an academic program, or~~
- ~~• created an intimidating, hostile or offensive social, academic or work environment~~

D5. Since you have been a student at [University], has a student, or someone employed by or otherwise associated with [University] continued to ask you to go out, get dinner, have drinks or have sex even though you said, "No"?

Yes

Never experienced No

BOX D1

IF YES TO ANY QUESTION D1 – D5, CONTINUE

ELSE GO TO E1

You said that the following happened to you since you've been a student at [University]:

- **[IF D1 = YES]** Someone made sexual remarks or told sexual jokes or stories that were insulting or offensive
- **[IF D2 = YES]** Someone made inappropriate offensive comments about your or someone else's body, appearance or sexual activities
- **[IF D3 = YES]** Someone said crude or gross sexual things to you or made unwelcomed attempts to get you to talk about sexual matters
- **[IF D4 = YES]** Someone ~~emailed, texted, tweeted, phoned,~~ used social or instant messaged any other form of on-line media to communicate offensive sexual remarks, jokes, stories, pictures or videos to you or about you
- **[IF D5 = YES]** Someone continued to ask you to go out, get dinner, have drinks or have sex even though you said, "No"

D5a. Did (this/any of these) experience(s) affect you in any of the following ways? (Mark all that apply)

Interfered with your academic or professional performance

Limited your ability to participate in an academic program

Created an intimidating, hostile or offensive social, academic or work environment

None of the above

D6. How many different people behaved this way?

1 person [GO TO D6a]

2 persons [SKIP TO D6b]

3 or more persons [SKIP TO D6b]

[IF BLANK SKIP TO D6b]

D6a. [IF 1 PERSON] Was the person that did this to you...

Man

Woman

Other gender identity

Don't Know

SECTION F - INTIMATE PARTNER VIOLENCE (IPV/DV)

BOX F0

IF A13 = YES (PRIOR RELATIONSHIP) GO TO F1

ELSE SKIP TO G1

Earlier in the survey, you indicated that you have been in a partnered relationship at least part of the time since you have been a student at [University]. ~~People treat their partner in many different ways. The next section asks you questions about your relationship with your partner(s). Recall that partnered relationships include~~ Recall that a partnered relationship can be any of the following:

- ~~– casual relationship~~ Marriage or hook-up
- ~~– steady or serious relationship~~
- marriage, civil union, domestic
- Domestic partnership or cohabitation
- Steady or serious relationship
- Other ongoing relationship involving physical or sexual contact

People treat their partners in many different ways. The next section asks you questions about your relationship(s) with your partner(s).

F1. Since you have been a student at [University], has a partner controlled or tried to control you? Examples could be when someone:

- kept you from going to classes or pursuing your educational goals
- did not allow you to see or talk with friends or family
- made decisions for you such as, where you go or what you wear or eat
- threatened to “out” you to others

Yes

No

F2. Since you have been a student at [University], has a partner threatened to physically harm you, someone you love, or ~~themselves~~ him/herself?

-Yes

No

F3. Since you have been a student at [University], has a partner used any kind of physical force against you? or otherwise physically hurt or injured you? Examples could be when someone:

- bent your fingers or bit you
- choked, slapped, punched or kicked you
- hit you with something other than a fist
- attacked you with a weapon, ~~or otherwise physically hurt or injured you~~

Yes

No

BOX F1

IF F1=YES OR F2=YES OR F3=YES, THEN GO TO F4
ELSE ~~GO~~ SKIP TO G1

You said that the following happened to you since you've been a student at [University]:

- **[IF F1 = YES]** A partner controlled or tried to control you
 - **[IF F2 = YES]** A partner threatened to physically harm you or someone you love
 - **[IF F3 = YES]** A partner used physical force against you
-

F4. How many different partners treated you this way?

1 partner [GO TO F4a]

2 partners [SKIP TO F4b]

3 or more partners [SKIP TO F4b]

[IF BLANK SKIP TO F4b]

F4a. [IF 1 PERSON] Was the person that did this to you...

SECTION G – SV SCREENER

This next section asks about nonconsensual or unwanted sexual contact you may have experienced while attending [University].

The sexual behavior may have been performed on you or you may have been made to perform the sexual behaviors on another person. The person with whom you had the nonconsensual or unwanted contact could have been someone you know, such as someone you are currently or were in a relationship with, a co-worker, a professor, or a family member. -Or it could be someone you do not know.

Please consider anyone who did this, whether or not the person was associated with (University).

The following questions separately ask about contact that occurred because of physical force, incapacitation due to alcohol and/or drugs, and other types of pressure.

The first few questions ask about incidents that involved force or threats of force against you. Force could include someone ~~holding you down with his or her~~ using their body weight to hold you down, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

G1. Since you have been attending [University], has someone used physical force or threats of physical force to do the following with you:

- Sexual penetration. When one person puts a penis, fingers, or object inside someone else’s vagina or anus, or
- Oral sex. When someone’s mouth or tongue makes contact with someone else’s genitals

Yes [GO TO Attachment 1]

No

G2.— Since you have been attending [University], has someone used physical force or threats of physical force in an unsuccessful attempt to do any of the following with you:

- **Sexual penetration.** When one person puts a penis, finger, or object inside someone else's vagina or anus
- **Oral sex.** When someone's mouth or tongue makes contact with someone else's genitals

Yes [GO TO Attachment 1]

No

G3.— Since you have been attending [University], has someone used physical force or threats of physical force to do any of the following with you:

- kissing
- touching someone's breast, chest, crotch, groin or buttocks
- grabbing, groping or rubbing against the other in a sexual way, even if the touching is over the other's clothes

Yes [GO TO Attachment 1]

No

The next questions ask about incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol. Please include incidents even if you are not sure what happened.

G4.— Since you have been attending [University], has any of the following happened to you while you were unable to consent or stop what was happening because you were passed out, asleep or incapacitated due to drugs or alcohol:

- **Sexual penetration.** When one person puts a penis, finger, or object inside someone else's vagina or anus
- **Oral sex.** When someone's mouth or tongue makes contact with someone else's genitals

Yes [GO TO Attachment 1]

No

G5. Since you have been attending [University],- has any of the following happened to you while you were unable to consent or stop what was happening because you were passed out, asleep or incapacitated due to drugs or alcohol:

- kissing
- touching someone's breast, chest, crotch, groin, or buttocks
- grabbing, groping or rubbing against the other in a sexual way, even if the touching is over the other's clothes

Yes [\[GO TO Attachment 1\]](#)

No

The next questions ask about incidents when someone coerced you by threatening serious non-physical harm or promising rewards.

G6. Since you have been a student at [University], has someone had contact with you involving penetration or oral sex by threatening serious non-physical harm or promising rewards such that you felt you must comply? Examples include:

- Threatening to give you bad grades or cause trouble for you at work
- Promising good grades or a promotion at work
- Threatening to share damaging information about you with your family, friends or authority figures
- Threatening to post damaging information about you online

Yes [\[GO TO Attachment 1\]](#)

No

G7. Since you have been a student at [University], has someone had contact with you involving kissing or other sexual touching by threatening serious non-physical harm or promising rewards such that you felt you must comply? Examples include:

- Threatening to give you bad grades or cause trouble for you at work
- Promise good grades or a promotion at work
- Threatening to share damaging information about you with your family, friends or authority figures
- Threatening to post damaging information about you online

Yes [\[GO TO Attachment 1\]](#)

No

The next questions ask about incidents that occurred without your active, ongoing voluntary agreement.

G8.- Since you have been a student at [University], has someone had contact with you involving penetration or oral sex without your active, ongoing voluntary agreement? Examples include someone:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

Yes [[GO TO Attachment 1](#)]

No

G9.- Since you have been a student at [University], has someone kissed or sexually touched you without your active, ongoing voluntary agreement? Examples include:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

Yes [[GO TO Attachment 1](#)]

No

BOX G1

No [GO TO I1]

[IF BLANK THEN CONTINUE TO I1]

H2. ~~Overall, how useful was this session?~~

H2a. [IF H2 = YES] What topics did these training modules or information sessions include?
(Mark all that apply)

H2. Overall, how useful was this session?

How sexual assault or other sexual misconduct is defined on campus

How to prevent sexual assault or other sexual misconduct

Additional training programs on how to prevent sexual assault or other sexual misconduct

Where to seek help should you or someone else experience sexual assault or other sexual misconduct

[IF ANY RESPONSE OR IF BLANK THEN SKIP TO I1]

~~Not at all, A little, Somewhat, Very, Extremely~~

SECTION I - PERCEPTIONS OF RESPONSES TO REPORTING

The following are statements about what might happen if someone were to report a sexual assault or other sexual misconduct to an official at [University]. Please use the scale provided to indicate how likely you think each scenario is.

11. If someone were to report a sexual assault or ~~sexual misconduct to an official at [University], how likely is it that students would support the person making the report?~~

Not at all, other ~~A little, Somewhat, Very, Extremely~~

12. ~~If someone were to report a sexual assault or sexual misconduct to an official at [University], how likely is it that the alleged offender(s) or their associates would retaliate against the person making the report?~~

Not at all, A little, Somewhat, Very, Extremely

13. ~~If someone were to report a sexual assault or sexual misconduct to an official at [University], how likely is it that campus officials would take the report seriously?~~

Not at all;
A little;
Somewhat;
Very;
Extremely

14

12. If someone were to report a sexual assault or ~~sexual misconduct to an official at [University], how likely is it that campus officials would protect the safety of the person making the report?~~

Not at all, A little, Somewhat, Very, Extremely

15. ~~If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would conduct a fair investigation?~~

Not at all;
A little;
Somewhat;
Very;
Extremely

16. ~~If someone were to report a sexual assault or sexual misconduct to an official at [University], how likely is it that campus officials would take action against the offender(s)?~~

Not at all, A little, Somewhat, Very, Extremely

17. ~~If someone were to report a sexual assault or sexual misconduct to an official at [University], how likely is it that campus officials would take action to address factors that may have led to the sexual assault or sexual misconduct?~~

~~Not at all, A little, Somewhat, Very, Extremely~~

SECTION J - BYSTANDER BEHAVIOR

The next questions are about situations you may have seen ~~or been in~~ since you have been a student at [University].

J1. Since you have been a student at {[University]}, have you ~~suspected~~ noticed someone at [University] making inappropriate sexual comments about someone else's appearance, sharing unwanted sexual images, or otherwise acting in a sexual way that a friend had been sexually assaulted. you believed was making others feel uncomfortable or offended?

Yes [CONTINUE]

~~No [GO TO J3]~~

No [GO TO J2]

[IF BLANK THEN GO TO ~~J3~~ J2]

J1a. Thinking about the last time this happened, what did you do? **J2.** Thinking about the last time this happened, what did you do?

(Mark all that apply)

Directly intervened or interrupted the situation in the moment

Checked in with the person who seemed impacted by the behavior

Confronted or expressed concern to the person engaging in the behavior

Sought help from either person's friends

Sought help from someone else

Expressed concern to school administrators or another person in a position of authority

Did nothing because the person impacted appeared to be handling the situation

Did nothing because I wasn't sure what to do

Did nothing for another reason

Spoke to my friend or someone else to seek help

Took action in another way Other

J2. ~~J3~~ Since you have been a student at [University], have you ~~seen~~ witnessed a drunk person heading off for what looked like a pattern of ongoing sexual encounter comments or behaviors that made you concerned that a fellow student at [University] was experiencing sexual harassment?

Yes [CONTINUE]

~~No [GO TO J3]~~ Yes [CONTINUE]

~~No [GO TO J5]~~

[IF BLANK THEN GO TO ~~J5~~ J3]

~~J4. Thinking about the last time this happened, what did you do?~~

J2a. Thinking about the last time this happened, what did you do? (Mark all that apply)

FORM

Section GA – Detailed Incident Form (DIF) for G1-G5

BOX GA0

IF ALL ITEMS G1 – G5 G9 = 'NO' OR BLANK THEN SKIP TO BOX GC0H0
ELSE CONTINUE TO BOX GA1

BOX GA1

Section GA is administered UP TO 2 up to 4 TIMES -based on incidents reported in items G1-
G5 – G9

Respondents who reported at least 1 incident in G1 – G9 will be asked to complete 1 DIF.
Respondents who reported more than 1 incident will be given the option to complete up to
4 DIFs (see the end of section GA for this request).

A DIF will be in reference to 1 single incident

The incident referenced by a DIF will be selected by the respondent, based on how much
the experience impacted or affected the respondent.

-- The FIRST DIF will reference the incident which IMPACTED OR AFFECTED
the respondent THE MOST-SERIOUS TYPE of incident reported

-- The SECOND DIF will reference the incident which IMPACTED OR AFFECTED
the respondent THE SECOND MOST-SERIOUS TYPE

-- ...up to 4 incidents

BOX GA1.5

Count number of incident reported eligible incidents for each item in section G:

The following are the 4 INCIDENT TYPES reported in G1-G5, (listed from most serious to
least serious):

GA Type 1: G1 and/or G2 (Forcible rape and/or Attempted forcible rape)

GA Type 2: G4 (Rape by incapacitation)

GA Type 3: G3 (Forcible sexual touching)

GA Type 4: G5 (Sexual touching by incapacitation)

if sum (G1count-G9count) =1 then:

"...what happened during the incident you reported..."

if sum (G1count-G9count) >1 AND first incident then:

"...what happened during one of the incidents you reported..."

if sum if sum (G1count-G9count) >1 AND 2nd-4th incident then:

"...what happened during another one of the incidents you reported..."

The following questions ask about what happened during (the/(another) one of the incident(s) you reported earlier. Sometimes it is difficult to report on these details, but the information you provide will help us understand the context and consequences of the incident.

Please remember that you can skip any question if you do not want to answer.

[IF FIRST INCIDENT]: You said that the following happened to you since you have been a student at [University]:

● **[SUMMARY OF REFERENCE INCIDENT(S)]**

- **The next**[IF G1count > 0] Penetration or oral sex involving physical force or threats of physical force ([G1count] incidents)
- [IF G2count > 0] Attempted but not successful penetration or oral sex involving physical force or threats of physical force ([G2count] incidents)
- [IF G3count > 0] Sexual touching involving physical force or threats of physical force ([G3count] incidents)
- [IF G4count > 0] Penetration or oral sex when you were unable to consent or unable to stop what was happening ([G4count] incidents)
- [IF G5count > 0] Sexual touching when you were unable to consent or unable to stop what was happening ([G5count] incidents)
- [IF G6count > 0] Penetration or oral sex when you were coerced by threats of serious non-physical harm or promised rewards ([G6count] incidents)
- [IF G7count > 0] Sexual touching when you were coerced by threats of serious non-physical harm or promised rewards ([G7count] incidents)
- [IF G8count > 0] Penetration or oral sex without your active ongoing consent ([G8count] incidents)
- [IF G9count > 0] Sexual touching without your active ongoing consent ([G9count] incidents)

[IF ONE INCIDENT]: Please answer the following questions ~~ask about~~ what happened ~~(when/during any of the times)~~ this experience and how it impacted or affected you.

[IF FIRST INCIDENT OF 2 OR MORE]: The following questions ask you about what happened ~~to you since you have been a student at [University].~~ during one of these experiences. While all such experiences are of great concern, please answer the following questions about the experience that has impacted or affected you the most.

GA1. ~~(In total, across all of these incidents)~~ {
[IF SECOND, THIRD OR FOURTH INCIDENT] You reported that [XX] other incidents involving sexual contact occurred. The following questions ask you about what happened during the incident that had the NEXT greatest impact on you. Please remember that you can skip any question if you do not want to answer.

GA1. ~~How/~~how many people did this to you? (during this incident)?

- 1 person [GO TO GA2a]
- 2 persons [SKIP TO GA2b]
- 3 or more persons [SKIP TO GA2b]
- [IF BLANK SKIP TO GA2b]

GA2a. [IF 1 PERSON] Was the person that did this to you ...

- Male
- ~~Female~~Man
- Woman
- Other gender identity
- Don't know
- [FOR ANY RESPONSE OR IF BLANK SKIP TO ~~GA3~~GA2c]

GA2b. [IF >1 PERSON] Were any of the people that did this to you...

- | | | | |
|--------------------------------|-----|----|-----------------------|
| Male <u>Man</u> | Yes | No | Don't Know |
| Female <u>Woman</u> | Yes | No | Don't Know |
| Other gender identity | Yes | No | Don't Know |
| <u>Don't Know</u> | Yes | No | |

GA2c. ~~What type of nonconsensual or unwanted behavior occurred during (this incident/any of these incidents)?~~ (Mark all that apply)

- Penis, ~~fingers~~finger(s) or ~~objects~~object(s) was inside someone's vagina or anus
 - Mouth or tongue ~~makes~~made contact with another's genitals
 - Kissed
 - Touched breast, chest, crotch, groin or buttocks
 - Grabbed, groped or rubbed in a sexual way
 - Other
-

GA2d. How did the person do this? (Mark all that apply)

The person(s) used physical force or threats physical of force

The person(s) did this when I was unable to consent or stop what was happening because I was passed out, asleep, or incapacitated due to drugs or alcohol

The person(s) threatened serious non-physical harm or promised rewards

The person(s) did this without my active, ongoing, voluntary agreement

GA3. How (is the person/ are the persons) who did this to you associated with [University]? (Mark all that apply)

Student

Student teaching assistant

Faculty or instructor

Research staff

~~Coach or trainer~~

Other staff or administrator

Coach or trainer

Alumni

Other person ~~affiliated~~ associated with a university program (ex. [University] (e.g., internship, study abroad)

The person was not ~~affiliated~~ associated with [University]

~~Don't know~~ Unsure about association with [University]

GA4. At the time of (this event/ these events), what (was the person's /were these persons') relationship to you? (Mark all that apply)

~~At the time, it was someone~~ Someone I was involved or intimate with at the time

Someone I previously had been involved or ~~was~~ intimate with _

~~Teacher or advisor~~

Advisor

Someone I was teaching or advising

Live-in residential staff

Coach or trainer

~~Boss~~ Co-worker, boss or supervisor _

Co-worker

~~Friend or acquaintance~~ _

~~Stranger~~

~~Other~~

~~Don't~~ Classmate

Someone I know or recognize, but was not a friend

Did not know or recognize this person

GA5. ~~Just prior to~~ (Before the incident/~~any of these incidents~~),_z (was/were) (the person/~~any of the persons~~) who did this to you drinking alcohol?

Yes

No

Don't know

~~GA6. Just prior to (the incident/any of these incidents), (was/were) (the person/any of the persons) who did this to you using drugs?~~

GA6. ~~Before~~ ~~GA7. Just prior to~~ (the incident, (was/were) (the person/any of the persons) who did this to you using drugs?

Yes

No

Don't Know

GA7. ~~these incidents)~~Before the incident were you drinking alcohol? Keep in mind that ~~you are~~your use of alcohol in no way ~~responsible for what occurred, even if you had been drinking?~~absolves a person who acted against your will.

Yes

No

GA8. ~~Just prior to~~ (Before the incident/~~any of these incidents~~) did you voluntarily take any drugs? Keep in mind ~~that you are~~your use of drugs in no way ~~responsible for what occurred, even if you had been on drugs~~absolves a person who acted against your will.

Yes

No

GA9. ~~Just prior to~~ (Before the incident/~~any of these incidents~~),_z had you been given alcohol or another drug without your knowledge or consent?

Yes, I am certain

I suspect, but I am not certain

No

Don't know

BOX GA2

IF GA7='YES' or GA8='YES' or GA9 = 'YES' or 'I SUSPECT', THEN CONTINUE TO GA10.

~~During consensual activity, ignored your verbal cues to stop or slow down~~

~~During consensual activity, ignored your nonverbal cues to stop or slow down~~

~~Otherwise failed to obtain your active ongoing voluntary agreement~~

~~None of the above~~

Appendix 3. Human Subjects Protections and Safeguards

A3.1 IRB Review Options and Process Overview

In October 2018, Westat submitted its Institutional Review Board (IRB) package (including the instrument and study protocols) to both the Westat IRB, for a full review, and the 33 participating IHEs, who used the materials to develop their own IRB packages. Full approval was obtained in October 2018. In December 2018, Westat programmed and tested the instrument, and the first group of IHEs launched the survey on February 1, 2019.⁵³

Among participating IHEs, 13 elected to rely on Westat’s IRB as the IRB of record, and 13 chose to use their own IRB. Seven schools determined their involvement in the study did not constitute human subjects research and, consequently, elected not to seek IRB approval or review.

An IRB Authorization Agreement was executed between Harvard University and Westat on December 12, 2018, agreeing that Westat would rely on Harvard University’s IRB for review and continuing oversight of its human subjects research.

A3.2 Respondent Emotional Protections

Given the sensitive nature of the survey topic, there was some risk of emotional distress for survey participants, as well as concerns about confidentiality and data security. Consequently, a number of human subject protections and security protocols were considered and put in place for survey participants.

A3.3 NIH Certificate of Confidentiality

The AAU Survey is protected by a Federal Certificate of Confidentiality (CoC) CC-AA-15-45. This certificate, issued by the National Institute on Alcohol Abuse & Alcoholism, National Institutes of Health (NIH), allows “researchers to refuse to disclose identifiable research

⁵³To accommodate differences in IHEs’ academic calendars, IHEs chose the field period (generally three weeks) during which they wanted their survey to be open, with the earliest available launch date of February 1, 2019.

information in response to legal demands,”⁵⁴ such as court orders and subpoenas, for identifying information or identifying characteristics of a research participant. This is an important legal tool and we are very pleased to have secured this protection for our study participants.

NIH issued the certificate to Westat on April 8, 2015 for the 2015 AAU Survey and extended the protections for respondents completing the 2019 AAU Survey.

A3.4 Informed Consent

The first safeguard against participant distress was the process of informed consent. Functioning as a gateway to the survey, the consent form provided details about the survey, set expectations for the types of questions to be asked, and allowed students to make an informed decision whether participation was right for them. Students who felt they would become distressed taking such a survey could choose not to participate (and could not enter the survey), and students who consented to participate were prepared for the sensitive topics. The consent form emphasized that respondents could skip any question they did not want to answer, and that they could stop the interview at any time if they felt uncomfortable or simply wished to stop. In addition, all consent forms concluded with contact information for a responsible IRB and research representative.

Shortly after the launch of the 2015 *Campus Climate Survey*, institutional representatives indicated that students who reported that there was no warning about the sensitive content of the survey had not seen or read the portion of the survey consent form that described the sensitive nature of the survey. To respond to these concerns, this portion of schools’ consent form highlights this information, partly by using the phrase “TRIGGER WARNING” prior to a description of language used in the survey (see example below).

TRIGGER WARNING: Some of the language used in this survey is explicit and some people may find it uncomfortable, but it is important that we ask the questions in this way so that you are clear what we mean. Information on how to get help, if you need it, appears on the top of each page and at the end of the survey.

⁵⁴From What is a Certificate of Confidentiality? NIH Certificates of Confidentiality (CoC) Kiosk <http://grants.nih.gov/grants/policy/coc/index.htm>.

A3.5 Distress Protocols

Prior studies on sexual assault and other misconduct show that most individuals do not find participation in such research to be harmful and, in many cases, consider their participation beneficial (Wager, 2012; Yeater, Miller, Rinehart, and Nason, 2012). However, data collection for the AAU Survey included several safeguards to minimize risk related to emotional distress.

A3.6 Campus-specific Resources

Campus-specific resource lists with contact information on national, campus, and community-specific resources were offered to all students and accessible both inside and outside the survey. Examples of such resources include counseling and medical centers and 24-hour crisis phone lines. A link to these resources was available on each survey screen starting with the initial landing page.

Although we anticipated that most participants would access these resources through the web survey, we also developed a protocol for Help Desk staff to use if they received distress calls or questions about sexual assault resources.

A3.7 Help Desk

To further encourage participants to complete the survey and minimize distress, Help Desk staff were available by phone and email throughout data collection to answer technical questions about the survey and how to complete it, and to provide resource lists to respondents who call and need additional support or referrals for services. Help Desk contact information was provided in all email communication and was available on all screens of the online survey, as well as on the survey landing page. Help Desk staff were trained in both project and customer service procedures, including distress protocols. While Help Desk staff did not provide counseling or other crisis intervention services, staff were prepared to offer respondents the same resource information included in the online survey for their specific campus. In the event that a caller expressed elevated distress or a threat to themselves or others, the staff were trained to directly connect these students with counseling services from the resource list. Data collection closed without the need to initiate the distress protocol.

In all cases, Help Desk staff were trained to be sensitive to callers and respond to them politely and thoughtfully, regardless of the circumstances of their call.

Campus Climate Survey
on Sexual Assault and Misconduct

Menu FAQs Support Resources Help Desk: (855) 793-5324

What is your class year in school? Answer on the basis of the number of credits you have earned.

- 1st year
- 2nd year
- 3rd year
- 4th year or higher

< Back Save & Exit Forward >

As shown in this screenshot above, each page of the survey included links to general and school-specific frequently asked questions (FAQs) and resources in the upper right corner. It also included the Help Desk number for easy access to those students who needed it for either technical assistance or additional resources.

A3.8 Data Security and Protecting Confidentiality

All survey data were collected via a secure web site hosted at Westat. The respondent's email address was encrypted and stored in a database. Upon final submission of the survey, the respondent's email address and PIN number (used to create the unique survey link) was automatically deleted from the database, removing any linkage between the survey responses and the respondent. For any respondents who completed some of the survey but did not formally submit it, these variables were deleted manually at the end of the data collection period.

Roster file data were not included in the survey data file so that if someone were to somehow obtain the survey data, they could not associate any data with a particular individual.

All necessary steps to mask the identity of survey respondents have been taken for the data analysis and reporting. The analysis included only quantitative components. Results are tabular, as well as more formal statistical models. Results were reviewed to ensure an acceptable risk of disclosure, including suppression of demographic characteristics and other potentially identifying information in situations in which cell sizes are small.

All data pertaining to this project have been stored in a secure manner in a physical and electronic form that can only be accessed by study personnel. All electronic data have been stored on network server directories. Access to the network project directory has been

controlled through the use of directory and file access rights based upon user account ID and the associated user group definition. Paper data are stored in locked files cabinets.

Datasets will be provided to AAU and to participating schools. These project partners will own their respective datasets and the reports summarizing findings that Westat will also deliver. The individual datasets have been reviewed for potential disclosure risks. Where appropriate, variables were altered (e.g., categories collapsed) to eliminate potential disclosure risks before delivering the final files.

Three years after completion of the study, all data and files held by Westat related to this study will be permanently destroyed.

Informed Consent

Harvard University Informed Consent

Harvard University is asking all students to participate in a climate survey on sexual assault and misconduct. The survey is sponsored by Harvard in collaboration with the Association of American Universities (AAU). The results will be used to guide policies which encourage a healthy, safe, and nondiscriminatory environment at Harvard.

This survey includes sections that ask about your knowledge and beliefs about social situations, perceptions related to sexual misconduct at Harvard University, and your knowledge of resources available at Harvard University. This survey also asks about your personal experience with sexual misconduct, such as harassment, sexual assault, and other forms of violence.

CONTENT WARNING: You may find the language in this survey explicit or uncomfortable. Information on how to seek support (including both technical and personal support), appears on the top of each page and again at the end of the survey.

This survey will likely take approximately 20-30 minutes to complete. You do NOT have to participate in this survey and may exit the survey at any time. You will be offered a \$5 gift card to Amazon.com upon completion of this survey.

We will protect the confidentiality of your answers to the extent the law allows. When you complete the survey the link with your name, email and IP address will be broken so that no-one will be able to connect these with your survey answers. The results will be presented in summary form so no individual can be identified. However, if we learn about child abuse or about a threat of harm to yourself or others, we are obligated to report it to the authorities.

This research is covered by a Certificate of Confidentiality from the National Institutes of Health. The researchers with this Certificate may not disclose or use information that may identify you in any federal, state, or local civil, criminal, administrative, legislative, or other action, suit, or proceeding, or be used as evidence, for example, if there is a court subpoena, unless you have consented for this use. Information protected by this Certificate cannot be disclosed to anyone else who is not connected with the research except, if there is a federal, state, or local law that requires disclosure (such as to report child abuse or communicable diseases but not for federal, state, or local civil, criminal, administrative, legislative, or other proceedings); if you have consented to the disclosure, including for your medical treatment; or if it is used for other scientific research, as allowed by federal regulations protecting research subjects.

If you have any technical or logistical questions about this study please send an e-mail to CampusClimateHelp@westat.com or call 1 (855) 497-4787. If you have Harvard-specific questions or comments, including about Harvard's sponsorship of this study, you should refer to the FAQ and contact information for various resources provided on <https://titleix.harvard.edu/survey> or email aausurvey@harvard.edu. If you have questions about your rights and welfare as a research participant, you can call the Committee on the Use of Human Subjects in Research at Harvard University. They can be reached at (617) 496-2847, 1350 Massachusetts Ave., Suite 935, or cuhs@harvard.edu.

Frequently Asked Questions (FAQs)

Harvard University Frequently Asked Questions (FAQs)

What is the Harvard Student Survey on Sexual Assault & Misconduct?

It is a survey for all Harvard degree students to measure the prevalence of, attitudes towards, and response to sexual harassment and sexual assault on our campus.

The survey—known broadly as the campus sexual climate survey—is sponsored by the Association of American Universities (AAU) and is being sent to students at thirty-three participating colleges and universities this spring; it is a follow-up to the AAU’s 2015 campus sexual climate survey, in which Harvard also participated. The data collected will provide information not only about the environment on Harvard’s campus, but also about the environment at many other institutions across the country. To ensure confidentiality and protect response information, an independent research firm—Westat—will be administering the survey.

At Harvard, for clarity, we are calling it the Harvard Student Survey on Sexual Assault & Misconduct and the emails you will receive from Westat will refer to the survey by that name. While other participating institutions may use a different name for the surveys, Harvard’s survey is nearly identical to those administered on other campuses, with just a few examples and questions which are unique to Harvard.

Will my answers be confidential?

Yes. Survey responses will be completely confidential.

When you complete the survey, the connection with your name, email, and IP address will be permanently severed, so responses will not be connected to identifying information from that point forward. If you start the survey but do not complete it, the connection with your name, email, and IP address will be permanently severed at the end of the survey period.

Why should I take the survey?

Your responses will provide Harvard with a better understanding of student experiences on campus. That understanding can help inform university policies designed to prevent sexual harassment and sexual assault, improve resources, and measure change to create a safer environment for all of Harvard’s community members.

To do this, a high response rate is critical.

I have not experienced sexual harassment or sexual assault while at Harvard. Should I still take this survey?

Yes, absolutely. This survey is for all students, and in order to fully understand the landscape around sexual harassment and assault on campus, we need to hear from everyone, whether you have personal experiences around sexual misconduct or not. Again, a high response rate will yield more accurate understanding of the campus environment at the university.

How do I take the survey?

Every Harvard student over 18 years of age who is a degree candidate will receive an email with the subject line “Harvard Student Survey on Sexual Assault & Misconduct,” which will be sent by Westat, the firm administering the survey. Open the email invitation and click on the individualized link—you must use this link to access the survey (this protects your confidentiality – read more here). Harvard’s survey period will run from April 2 through April 30.

Westat will send all students three reminder emails (on April 15, April 22, and April 29) that again will contain the individualized link needed to access the survey (these reminders will be sent even if you have already completed the survey). Note that while you also will receive multiple emails from members of the Harvard community, only Westat’s emails will have your individualized survey link.

Am I required to take this survey?

No. You do not have to participate in this survey, and if you do participate, you may skip any question you are not comfortable answering; you may also exit the survey at any time.

How long will the survey take to complete?

This survey should take approximately 30 minutes to complete. If you do not complete the survey in one sitting, you will be able to save your progress and return to it at another time.

What will Harvard do with the results?

Harvard will share aggregated results in a way that protects the privacy of students and will use the results to understand how we can better prevent and address sexual misconduct within the Harvard community.

Harvard expects to share aggregated results with our community. We plan to report data that permits comparability with other AAU institutions. In addition, Westat will provide a report that aggregates data across all participating institutions. These results will be used to understand the current climate at Harvard regarding sexual harassment and sexual assault and to shape related policies.

Which institutions are participating in the survey sponsored by the AAU?

Boston University
Brown University
California Institute of Technology
Carnegie Mellon University
Case Western Reserve University
Georgetown University
Harvard University
Iowa State University
Massachusetts Institute of Technology
Northwestern University
Rice University
Stanford University
Texas A&M University
The John Hopkins University
The Ohio State University
The University of Arizona
The University of Chicago
The University of Kansas
The University of North Carolina at Chapel Hill
The University of Wisconsin-Madison
University of Florida
University of Michigan
University of Minnesota, Twin Cities
University of Missouri
University of Oregon
University of Pennsylvania
University of Pittsburgh
University of Rochester
University of Southern California
University of Virginia
Vanderbilt University
Washington University in St. Louis
Yale University

Will Harvard make the survey data public?

Yes. [You may view the findings from the 2015 survey here](#). Harvard's 2019 survey results will be released this fall, alongside Westat's report on the national aggregate data.

What has changed at Harvard since the last survey was administered in 2015?

Many changes have occurred since the 2015 survey. The Title IX Office and the Office for Dispute Resolution (ODR) became two distinct entities, both reporting to the Office of the Provost. This separation allowed ODR to handle cases that fell outside of the scope of the University Sexual and Gender-Based Harassment Policy, at the request of Schools or Units. The separation also allowed the Title IX Office to expand its educational programming offered across the University and to work more closely with local Title IX Coordinators in responding to disclosures. Since 2015, Harvard's network of local Title IX Coordinators has expanded, including the presence of full-time Title IX Coordinators at the College and at Harvard Law School, for example.

Other significant changes include; the redesign of the [Title IX Office's website](#) to increase awareness and understanding of the University Sexual and Gender-Based Harassment Policy; the development of new and enhanced [resource materials including an Employee Resource folder which outlines the steps to support individuals who disclose an incident of sexual or gender-based harassment](#); increased staffing within the Title IX Office and the Office of Sexual Assault Prevention & Response (OSAPR); the development of new trainings to address areas such as bystander intervention; and the launch of School-specific online training courses for students and mandatory online training for students, staff, and faculty. Additionally, the Title IX Student Liaison Committee first convened in the fall of 2018 and was formed as the result of recommendations made by key stakeholders at the institution. The Committee is designed to serve as a centralizing hub of information, to give voice to students' needs, and to engage in dialog around means of preventing and responding to sexual and gender-based harassment across the Harvard community.

Why is Harvard conducting the survey again?

Campus climates change over time. The 2015 survey provided us baseline data, increased community engagement and led to improvements in resources to address sexual misconduct in our community. Issuing the survey again allows us to identify trends and adapt our approaches.

Are there any incentives associated with this survey?

All students at Harvard who complete the survey will receive a \$5 Amazon gift card.

Does the survey work on all browsers and handheld devices?

Yes, the survey is compatible with all browsers and handheld devices. You do not have to complete the survey from a Harvard computer or Harvard network.

I am having technical difficulties (for example, I lost my link to the survey, or I'm having issues with the \$5 Amazon.com gift card). What should I do?

Please send an e-mail to CampusClimateHelp@westat.com or call 1-855-497-4787.

I would like to talk to someone about sexual harassment and sexual assault. Who should I contact?

Please refer to our resource list here. [HYPERLINK]

I still have questions about the survey. Who should I contact?

Send an email to aausurvey@harvard.edu. During the four weeks that the survey is open (April 2 through April 30), this Harvard-specific email account will be regularly monitored and someone will respond to your questions within one business day.

Survey Invitation and Reminder Messages

Pre-Notification Email

To be sent from a university email account by schools that are having Westat send all survey invitation and reminder emails; will include link to a video message

Subject: Harvard Student Survey on Sexual Assault & Misconduct to Launch Next Week

Text of email:

Dear student:

Next week, Harvard will launch the Harvard Student Survey on Sexual Assault & Misconduct. Similar surveys are being administered at 32 other universities this year. For our community, this survey is an important tool as we continue to address my highest priority as President, which is to create a community where all of us can do our best work. Each of us has an important role to play in ensuring that outcome; completing this survey can be one, important first step toward encouraging a welcome, healthy, and safe environment at Harvard. By taking the time to complete this survey you will help inform where we may need to provide additional resources and support, so that we can best reach this goal.

Here is how the survey will work: You will receive an email from Westat- an independent research firm administering the survey- inviting you to participate and providing you with a unique URL to access your survey. Westat will not use your email address for any other purposes and will treat your survey responses as confidential.

As I wrote in a recent email to the University community, I am committed to empowering students, faculty, and staff alike to understand the role that we can all play in intervening and preventing harassment, and I reiterate that we must foster an environment where people can feel secure in disclosing harassment, accessing support services, and seeking resolution. Your participation in this survey is completely voluntary. I know your time is valuable, but your responses play a significant role in helping us to achieve our goals.

In 2015, we conducted Harvard's first campus survey on sexual assault and sexual misconduct in partnership with the Association of American Universities. By participating in the 2015, students were able to shape and inform the current policies, resources, and efforts to address and prevent concerns of sexual harassment and assault. However, we recognize there is still work to be done in this area and your input will help us continue driving change to create a safe and inclusive campus for all of Harvard's members.

I hope you will take the time to participate in this survey and truly appreciate the courage it takes to share your experiences.

Thank you,
President Bacow

Email Communications to Sweepstakes Respondents

1st Contact: Email Invitation Sent by a School Official

Subject: Invitation to take part in the Harvard Student Survey on Sexual Assault & Misconduct

Text of email:

From: [DEANS/SCHOOL DESIGNEES]

To: Harvard Student

I'm writing to ask you to participate in Harvard Student Survey on Sexual Assault & Misconduct. The results will be used to guide policies to encourage a healthy, safe and non-discriminatory environment at Harvard. It is important to hear from you, even if you believe these issues do not directly affect you.

I know your time is valuable, but I hope you can find the time to respond before the survey closes on April 30, 2019. You were sent an email on April 2nd from Westat- an independent research firm administering the survey- inviting you to participate and providing you with a unique URL to access your survey. **By clicking on that individualized link and completing the survey, you will receive a \$5 Amazon gift card.**

Your individual responses will be treated as confidential. Your participation in this survey is completely voluntary. However, your response is important to getting an accurate picture of the experiences and opinions of all students, so we encourage you to participate.

If you have any questions about the survey or have difficulty accessing it, please send an e-mail to CampusClimateHelp@westat.com or call 1 (855) 497-4787.

Thank you,
[SIGNATURE]

2nd and 3rd Contact: Email Reminder Sent by a Second School Official

Subject: Reminder to complete the Harvard Student Survey on Sexual Assault & Misconduct

Text of email:

From: [SENDER_2]

To: [INSTITUTION] Student

We hope you had an enjoyable and safe Spring Break. Before the break, you received an email from ausurvey@harvard.edu containing an individualized link to participate in the Harvard Student Survey on Sexual Assault & Misconduct. If you have filled out the survey, thank you. The individualized link was sent to all students because no identifying information is linked with the survey and we are unable to identify whether or not you have completed it.

If you have not had a chance to take the survey yet, please do so as soon as possible by clicking on the link below. Your participation in this confidential survey is voluntary, but the more people who participate, the better the information we will have to promote a healthier campus.

The closing date for the survey is April 30, 2019, so it is important to hear from you as soon as possible. You were sent an email on April 2nd from Westat- an independent research firm administering the survey- inviting you to participate and providing you with a unique URL to access your survey. **By clicking on that individualized link and completing the survey, you will receive a \$5 Amazon gift card.**

If you have any questions about the survey or have difficulty accessing it, please send an e-mail to CampusClimateHelp@westat.com or call 1 (855) 497-4787.

Thank you,
[SIGNATURE]

4th Contact: Email Reminder Sent by the Original School Official

Subject: Reminder to complete the Harvard Student Survey on Sexual Assault & Misconduct

Text of email:

From: [SENDER_1]

To: Harvard Student

Several weeks ago, you received an email from aausurvey@harvard.edu which contained an individualized link to participate in the Harvard Student Survey on Sexual Assault & Misconduct. Thank you to those of you who have already submitted the survey. An email with an individualized link was sent to all students because no identifying information is linked with the survey and we are unable to identify whether you have completed it.

The closing date for the survey is April 30, 2019, so it is important to hear from you as soon as possible. You were sent an email on April 2nd from Westat- an independent research firm administering the survey- inviting you to participate and providing you with a unique URL to access your survey. **By clicking on that individualized link and completing the survey, you will receive a \$5 Amazon gift card.**

If you have any questions about the survey or have difficulty accessing it, please send an e-mail to CampusClimateHelp@westat.com or call 1 (855) 497-4787.

Thank you,
[SIGNATURE]

Appendix 5. Results by Individual Status Code

A5.1 Definition of Completed Survey

We define a completed survey with two criteria: 1) the respondent answered at least one of the questions in each of the following victimization sections: sexual harassment (Section D), stalking (Section E), and sexual assault/other misconduct (Section G); and 2) the respondent took at least five minutes to fill out the survey.

When calculating response rates, we take the following response statuses into consideration:

- **Status 1:** Respondents who did not click on the link to access the Web survey
- **Status 2:** Respondents who clicked on the link to access the Web survey, but did not start the survey
- **Status 3:** Respondents who started the survey, but did not complete the victimization sections, and did not submit the survey
- **Status 4:** Respondents who completed and submitted the survey in less than five minutes
- **Status 5:** Respondents who submitted the survey, completed the survey in five or more minutes or started/submitted the survey on different days, but did not complete the victimization sections
- **Status 6:** Respondents who started the survey, completed the victimization sections, but did not submit the survey
- **Status 7:** Respondents who started the survey, completed the victimization sections, and submitted the survey

Based on the definition on completed survey, cases of Status 6 and 7 are considered as completed, whereas cases of Status 1 to 5 are considered as not completed. Therefore, the response rate is calculated as,

$$\text{Response Rate} = \frac{n_1 + n_2}{N}$$

Where N is the total number of students that received the survey invitation (for those schools that conducted a census, N represents the total number of registered undergraduate and graduate/professional students; for those few schools that did not conduct a census, N represents the total number of registered undergraduate and graduate/professional students that were sampled); n_1 represents the number of students who started the survey, completed the victimization sections, but did not submit the survey; n_2 represents the number of students who started the survey, completed the victimization sections, and submitted the survey.

Table A5.1. Frequency of survey response status for Harvard University

	Status Description	n	%
1	Did not click on link	12,693	55.2%
2	Clicked on link, but did not start	960	4.2%
3	Started, did not submit, did not have enough responses	857	3.7%
4	Submitted, completed in <5 minutes	176	0.8%
5	Submitted, completed \geq 5 minutes or could not measure duration, did not did not have enough responses	15	0.1%
6	Started, not submitted, completed minimum responses	283	1.2%
7	Started, submitted, completed minimum responses	8,031	34.9%
	Total	23,015	100.0%

A5.2 Drop-out Rates

Students who consented to participate, then entered the survey but did not complete the victimization sections were not counted as a complete for the survey. Similarly, data for those students who completed the survey in less than five minutes were eliminated.

Approximately 11.2 percent of individuals that started the survey did not complete it using the criteria described above ($(1,048 / 9,362) = 11.2\%$). Once starting section G (sexual violence), 15 percent of respondents were dropped from the analysis dataset. Of those that did not complete the survey, 52 percent did not answer the first question in the Sexual Harassment section and 85 percent did not answer the first question in the first sexual violence section.

Table A5.2. Survey drop-out rate for Harvard University: Percent Non-Missing Responses for Initial Item in Each Section for Respondents That Started the Survey^{1,2}

Section	Not Complete	Complete	Total
Section A – Background	98%	100%	100%
Section BB – General Perceptions of Campus	70%	100%	97%
Section B – Perceptions of Risk	59%	99%	94%
Section C – Knowledge of Resources	55%	100%	95%
Section D – Sexual Harassment	48%	100%	94%
Section E – Stalking	28%	100%	92%
Section G – SV Screener	15%	100%	90%
Section I – Perceptions of Responses to Reporting	15%	98%	88%
Section J – Bystander Behavior	15%	97%	88%
Submitted	191	8,031	8,222
Total Started	1,048	8,314	9,362

¹ Initial questions used by section are: A2, BB1, B1, C2a, D1, E1, G1, H1, I1, J1. Sections F and HH are not included because not all respondents were routed to these sections. Although all respondents answered questions in Section H, they began with H1 or H2 depending on when they enrolled at the school.

² See text for definition of a completed survey.

Appendix 6. Non-response Bias Analysis

Non-response bias is an issue that all surveys have to address. As described in the weighting section, non-response bias occurs when the survey variables are correlated with response propensities. For example, if those that do not respond have different rates of victimization as those that do respond, then the estimates of victimization will be biased because of non-response. The survey weights were obtained from the raking procedure that is intended to adjust for non-response (Section 2.6). This adjustment used characteristics that are related to both non-response and many of the survey outcomes. For example, the adjustment used gender, which is highly related to all types of victimization and response propensity. However, there is still the potential that the estimates are subject to non-response bias if there are other differences between respondents and non-respondents that the adjustment does not account for. For example, if women victims of assault are more likely to participate than women who are not victims, then there is potential for non-response bias even after the weight adjustment by gender.

To evaluate the possibility of bias in the fully weighted estimates, analysis was conducted that assessed bias for the 10 different outcome measures listed in the Table A6-1.

Table A6-1. Ten key variables used in the non-response bias analysis

Variable Number	Variable Description	Name or Description Used in Discussion
1	Indicates whether respondent experienced penetration by physical force or inability to consent or stop what was happening since entering college	Penetration by Physical Force or Inability to Consent
2	Indicates whether respondent experienced sexual touching by physical force or inability to consent or stop what was happening since entering college	Sexual Touching by Physical Force or Inability to Consent
3	Indicates whether respondent experienced penetration or sexual touching without active, ongoing voluntary agreement since entering college	Penetration or Sexual Touching without Ongoing Consent
4	Indicates whether respondent experienced sexual harassment that interfered with their academic or professional performance; limited their ability to participate in an academic program; or created an intimidating, hostile, or offensive social, academic, or work environment since entering college	Harassment
5	Indicates whether respondent experienced at least one incident of stalking by the same person more than once that made them afraid for their personal safety or caused them substantial emotional distress since entering college	Stalking

Table A6-1. Ten key variables used in the non-response bias analysis—continued

Variable Number	Variable Description	Name or Description Used in Discussion
6	Indicates whether respondent in a partnered relationship experienced intimate partner violence since entering college	Intimate Partner Violence
7	Indicates whether respondent is 'very' or 'extremely' knowledgeable about on-campus resources for sexual assault and other sexual misconduct	Knowledge of Resources
8	Indicates whether respondent feels it is 'very' or 'extremely' likely that campus officials will do both of the following in response to a report of sexual assault or other sexual misconduct: take the report seriously and conduct a fair investigation	Perceptions of Response to Reports
9	Indicates whether respondent took some sort of action after noticing someone making inappropriate sexual comments about someone else's appearance, sharing unwanted sexual images, or otherwise acting in a sexual way that they believed was making others feel uncomfortable or offended.	Bystander Behavior
10	Indicates whether sexual assault or other sexual misconduct is perceived as very or extremely problematic at the school	Perception of Problem

One standard method of assessing non-response bias is to assume that the respondents that required the most effort to convince to complete the survey are similar to the nonrespondents. One way to operationalize this idea is to examine the outcomes by when the survey was submitted. Those students who required less time, and fewer reminders, to complete the survey represent a group that required less effort, while those that responded later are those that required more effort. This analysis assumes that those who responded later have more in common with the nonrespondents than those who responded early. If this assumption is true, then a difference in the outcome measures between the early and late responders would be an indication of non-response bias. For this purpose, 'early' responders are defined as the first 60 percent of respondents at the minimum, who submitted their survey. The late responders are the remaining respondents, who submitted later.⁵⁵

The analysis compared the weighted estimates of the 10 key survey outcome variables at the total population and subgroup levels. The subgroups are defined by the categories of the auxiliary variables used in weighting which include gender, age, year in school,⁵⁶ and

⁵⁵Because the submission time was calculated in days instead of continuum of time, it was most of time not possible to divide the respondent sample by 60/40 split.

⁵⁶This is the variable that combines Student Affiliation (which indicates whether a student is undergraduate, graduate or professional), Year of Study (for undergraduate students), and Year in Program (for graduate and professional students).

race/ethnicity (see Table 2 in Section 2.6). There are 18 categories of subgroups in total (2 Genders, 4 Age Groups, 7 categories of Year in School, and 5 categories of Race/Ethnicity). Comparisons are also made of subgroups defined by cross-classifications of the gender and student affiliation categories (four finer subgroups: undergraduate men, graduate/professional men, undergraduate women, and graduate/professional women). There were 230 comparisons overall, which corresponds to the sum of 10 population-level comparisons, 180 (= 10 key variables times 18 categories) subgroup-level comparisons, and 40 (= 10 key variables times four finer subgroups) finer subgroup-level comparisons.

Subgroup-level comparisons for the same auxiliary variable were made using the Benjamini-Hochberg multiple testing procedure (Benjamini and Hochberg, 1995)⁵⁷. For example, one t-test was performed to compare the estimate of Penetration by Physical Force or Inability to Consent for men. Another t-test was carried out for women in the same way. These two comparisons were made using the Benjamini-Hochberg procedure with an overall significance level of $\alpha=0.05$. Population-level comparisons were made individually with a 0.05 alpha-value.

Three (30%) out of 10 population-level comparisons are individually significant at 5 percent – they are Stalking, Knowledge of Resources, Perceptions of Response to Reports. One issue with these comparisons is they do not fully control for differences that are adjusted in the survey weights (e.g., gender and affiliation status). While this analysis uses the weights, it does not control within early and late responder groups. For example, there may be more men who responded later, and comparing the early and late responder groups does not control for this difference. It is more instructive to examine the subgroup differences, which are specific to some of the characteristics that were used in the weighting. Six (3.33%) out of 180 subgroup comparisons are significant, and 3 (7.5%) out of 40 finer subgroup comparisons are significant.

It is useful to concentrate on the subgroup estimates, as they are used throughout the report and they disaggregate by important variables used in the weighting. Table A6-2 provides the differences for each of these outcomes for the early vs. late responders for the four finer subgroups defined by gender and affiliation status. For example, for male undergraduate students the rate for Sexual Touching by Physical Force or Inability to Consent for late responders is 7.58 percent and for early responders is 6.47 percent. This difference is statistically not significant at the 5 percent level for multiple comparisons with a P-value of 40.69 percent.

⁵⁷Benjamini, Yoav; Hochberg, Yosef (1995). Controlling the false discovery rate: a practical and powerful approach to multiple testing. *Journal of the Royal Statistical Society, Series B.* 57 (1): 289–300.

Table A6-2. Comparison of early and later responders for finer subgroups (by gender and school affiliation) for 10 key variables (estimates in percent)

10	F	Grad/Prof	19.84	0.88	21.09	0.72	-1.25	29.03

¹ See Table A6-1 for definitions of outcomes

² UnderGr = Undergraduate; Grad/Prof = Graduate/Professional Student

³ StdErr = Standard Error for the proportion

⁴ A significant result is asterisked (*).

As noted above, 7.5 percent of the differences in Table A6-2 are statistically significant. These results indicate there is some evidence of non-response bias, since the number of significant differences is slightly more than what was expected by chance (i.e., 5 percent). Table A6-3 summarizes the comparisons that are statistically significant and the direction of the bias. A '+' sign indicates there is a positive bias and the estimate is too high. A '-' sign indicates there is a negative bias and the estimate is too low. These differences are described below after the table.

Table A6-3. Direction of non-response bias according to analysis of early and late responders for 10 outcome measures by gender and affiliation status

Outcome Variable	Male		Female	
	U	G/P	U	G/P
1. Penetration by Physical Force or Inability to Consent				
2. Sexual Touching by Physical Force or Inability to Consent		+		
3. Penetration or Sexual Touching without Ongoing Consent				
4. Harassment				
5. Stalking				
6. Intimate Partner Violence				
7. Knowledge of Resources				
8. Perceptions of Response to Reports			+	-
9. Bystander Behavior				
10. Perception of Problem				

U = Undergraduate, G/P = Graduate or Professional

Of the six outcome measures of sexual assault and sexual misconduct,⁵⁸ 1 out of the 24 possible finer subgroup comparisons are significant. The outcome measures that are significant are summarized below.

Sexual Touching by Physical Force or Inability to Consent. There is one significant difference. The difference for male graduate/professional students is negative, indicating the survey estimate is too high.

⁵⁸Six outcome measures of sexual assault and sexual misconduct include Penetration by Physical Force or Inability to Consent, Sexual Touching by Physical Force or Inability to Consent, Penetration or Sexual Touching without Ongoing Consent, Harassment, Stalking, and Intimate Partner Violence.

Of the four outcome measures of campus climate,⁵⁹ 2 out of the 16 possible finer subgroup comparisons are significant. The outcome measures that are significant are summarized below.

Perceptions of Response to Reports. There are two significant differences. The difference for female undergraduate students is negative, indicating the survey estimate is too high. The difference for female graduate/professional students is positive, indicating the survey estimate is too low.

Overall, this analysis of 40 finer subgroup comparisons indicates there is some evidence that there is bias in selected estimates. The estimates that are possibly affected are for

- Sexual Touching by Physical Force or Inability to Consent
- Perceptions of Response to Reports

This was found for several gender and affiliation groups. The direction of the possible bias is different, depending on the measure that is being discussed.

One caution related to the above analysis is that while this is one of standard methods to evaluate non-response bias, the assumption that those responded late resemble the nonrespondents does not always hold.⁶⁰ Nonetheless, without more direct measures of bias, this type of analysis is one of the few methods to assess non-response bias.

⁵⁹Four outcome measures of campus climate include Knowledge of Resources, Perceptions of Response to Reports, Bystander Behavior, and Perception of Problem.

¹Respondents were asked to report on these characteristics for up to four incidents that impacted or affected them the most.

²Estimates are for victimizations reported since entering college.

³Physical force: Incidents that involved force or threats of force against you. Force could include someone using their body weight to hold you down, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

Inability to consent or stop what was happening: Incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol.

⁴Per 100 victimizations.

⁵Per 100 victimizations where a program or resource was not contacted. Respondents could select multiple reasons.

⁶Per 100 victimizations with victims who did not think the incident was serious enough to contact any program/resource or had an 'other' reason they did not contact a program/resource. Respondents could select multiple reasons.

Sexual touching	4.0	0.2	11.1	0.7	3.7	0.3	2.3	0.4	1.3	0.2	11.5	2.0

¹Per 100 students.

²Coercion: Incidents when someone coerced you by threatening serious non-physical harm or promising rewards. Examples include threatening to give you bad grades or cause trouble for you at work; promising good grades or a promotion at work; threatening to share damaging information about you with your family, friends, or authority figures; or threatening to post damaging information about you online.

³Without voluntary agreement: Incidents that occurred without your active, ongoing voluntary agreement. Examples include someone initiating sexual activity despite your refusal; ignoring your cues to stop or slow down; went ahead without checking in or while you were still deciding; otherwise failed to obtain your consent.

³TGQN: Trans woman, trans man, nonbinary or genderqueer, questioning, not listed.

¹Respondents were asked to report on these characteristics for up to four incidents that impacted or affected them the most.

²Estimates are for victimizations reported since entering college.

³Per 100 victimizations.

⁴Without voluntary agreement: Incidents that occurred without your active, ongoing voluntary agreement. Examples include someone initiating sexual activity despite your refusal; ignoring your cues to stop or slow down; went ahead without checking in or while you were still deciding; otherwise failed to obtain your consent.

⁵Respondents could select multiple options.

¹Estimates are for victimizations reported since entering college.

²Per 100 students.

³Physical force: Incidents that involved force or threats of force against you. Force could include someone using their body weight to hold you down, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

Inability to consent or stop what was happening: Incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol.

Coercion: Incidents when someone coerced you by threatening serious non-physical harm or promising rewards. Examples include threatening to give you bad grades or cause trouble for you at work; promising good grades or a promotion at work; threatening to share damaging information about you with your family, friends, or authority figures; or threatening to post damaging information about you online.

Without voluntary agreement: Incidents that occurred without your active, ongoing voluntary agreement. Examples include someone initiating sexual activity despite your refusal; ignoring your cues to stop or slow down; went ahead without checking in or while you were still deciding; otherwise failed to obtain your consent.

⁴TGQN: Trans woman, trans man, nonbinary or genderqueer, questioning, not listed.

Other program or resource	26.7	1.2

¹Unless otherwise specified, estimates are for victimizations reported since entering college.

²Physical force: Incidents that involved force or threats of force against you. Force could include someone using their body weight to hold you down, pinning your arms, hitting or kicking you, or using or threatening to use a weapon against you.

Inability to consent or stop what was happening: Incidents when you were unable to consent or stop what was happening because you were passed out, asleep, or incapacitated due to drugs or alcohol.

Coercion: Incidents when someone coerced you by threatening serious non-physical harm or promising rewards. Examples include threatening to give you bad grades or cause trouble for you at work; promising good grades or a promotion at work; threatening to share damaging information about you with your family, friends, or authority figures; or threatening to post damaging information about you online.

Without voluntary agreement: Incidents that occurred without your active ongoing voluntary agreement. Examples include someone initiating sexual activity despite your refusal; ignoring your cues to stop or slow down; went ahead without checking in or while you were still deciding; otherwise failed to obtain your consent.

³Per 100 victims.

⁴Per 100 victims who contacted at least one program.

Table 6.2. Perception of Program Usefulness and Pressure to File a Complaint Among Victims Who Contacted at Least One Program^{1,2}

<i>Survey Item Response</i>	<i>%</i>	<i>StdErr</i>
<i>How useful was the program in helping you?</i>		
Not at all	17.2	1.2
A little	18.2	0.9
Somewhat	28.9	1.2
Very	21.9	1.0
Extremely	13.8	1.2
<i>At any time did you feel pressure from any of the programs on whether or not to report or file a complaint?</i>		
No, I did not feel pressure to proceed with reporting or filing a complaint	90.2	0.8
Yes, I felt pressure to proceed with reporting or filing a complaint	4.1	0.6
Yes, I felt pressure <u>NOT</u> to report or file a complaint	5.6	0.6

¹Unless otherwise specified, estimates are for victimizations reported since entering college.

²Per 100 contacts with a program.

How knowledgeable are you about what happens when a student reports an incident of sexual assault or (other) ⁴ sexual misconduct at [University]?	8.7	0.4	18.4	0.9	10.2	0.4	22.8	1.1	12.6	2.8	32.7	2.7
If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would take the report seriously?	42.4	0.9	49.3	1.0	61.0	0.8	74.7	1.1	26.6	3.8	48.0	3.2
If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would conduct a fair investigation?	28.7	0.7	33.2	1.0	38.4	0.7	51.3	1.2	22.3	3.7	25.9	2.8

Table 7.2. Undergraduate and Graduate/Professional Students' Perceptions of Risk and Knowledge of Resources, by Gender and School Year^{1,2} (continued)

Survey Item Response	Woman				Man			
	2015		2019		2015		2019	
	%	StdErr	%	StdErr	%	StdErr	%	StdErr
Graduate/professional (percent reporting 'very' or 'extremely')								
How problematic is sexual assault or (other) ⁴ sexual misconduct at [University]?	11.3	0.4	20.3	0.5	9.3	0.3	15.9	0.6
How knowledgeable are you about how sexual assault and (other) ⁴ sexual misconduct are defined at [University]?	11.8	0.4	30.7	0.6	13.9	0.4	32.9	0.7
How knowledgeable are you about where to get help at [University] if you or a friend experienced sexual assault or (other) ⁴ sexual misconduct?	19.0	0.5	36.8	0.7	16.9	0.5	38.3	0.7
How knowledgeable are you about where to make a report of sexual assault or (other) ⁴ sexual misconduct at [University]?	15.9	0.5	31.5	0.7	17.9	0.5	36.9	0.8
How knowledgeable are you about what happens when a student reports an incident of sexual assault or (other) ⁴ sexual misconduct at [University]?	6.3	0.3	17.2	0.5	7.2	0.3	21.2	0.7
If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would take the report seriously?	55.8	0.5	60.5	0.8	72.6	0.5	76.6	0.7
If someone were to report a sexual assault or other sexual misconduct to an official at [University], how likely is it that campus officials would conduct a fair investigation?	37.2	0.5	42.7	0.8	45.0	0.6	55.2	0.8

¹Per 100 students.

²Because of small sample sizes among TGQN students, undergraduate rows include both undergraduate and graduate/professional students.

³TGQN: Trans woman, trans man, nonbinary or genderqueer, questioning, not listed.

⁴2015 wording did not include 'other' in the question.
